WELCOME ADDRESS BY THE CHAIRPERSON OF NSD'S SUPERVISORY BOARD

Dear Shareholders, Clients, and Partners,

The financial market is experiencing dramatic shifts caused by both external and internal factors: technology has long become the driving force behind changes in corporate services and business models, while geopolitics has shaped cross-border cooperation and distribution of global assets.

Today, to succeed in the market, companies need to be able to respond to developments and challenges in both the external and internal environments. That is why NSD's new strategy is a crucial step that would largely shape the future of Russia's financial infrastructure.

The new strategy builds on the strengths of NSD's business (asset services and high-tech platform-based solutions) and is focused on various initiatives that will help NSD compete with global IT players and contribute to the national policy aimed at the development of innovative technologies in the financial market.

All of these trends have an impact on the Supervisory Board's work. Throughout the past year, we, at the Board meetings, addressed various matters that would support NSD's drive towards digitization and enhancement of complementary client services.

In the past year, our main focus in corporate governance was on shareholder relations. In particular, NSD's shareholders signed the amended and restated Shareholders Agreement with respect to NSD, and NSD became a party to the Shareholders Agreement.

The Shareholders Agreement needed to be amended and restated to reflect certain changes in Russian laws and regulations applicable to the CSD. Besides, since the execution of the previous Shareholders Agreement in 2011, NSD, in addition to acting as CSD, has taken a number of other infrastructure roles, including those of a systemically important trade repository and a nationally important payment system, all of which required to update the Shareholders Agreement.

Moscow Exchange holds a 99.997% interest in NSD's share capital, while each of the other 34 shareholders (banks, brokerage firms, registrars, Republican Unitary Enterprise "Republican Central Securities Depository" (Republic of Belarus), and ICSDs (Euroclear Bank SA/NV and Clearstream Banking S.A.)) holds one share. Thanks to such shareholder structure, the Shareholders Agreement strikes a balance between shareholders' interests and interests of NSD's service users.

The Shareholders Agreement demonstrates that the Moscow Exchange Group is willing to establish a corporate governance system that is transparent to securities market participants.

Bella Zlatkis,
Chairperson of the Supervisory Board, NSD
Deputy Chairperson of the Executive Board, Sberbank

WELCOME ADDRESS BY THE CHAIRPERSON OF NSD'S EXECUTIVE BOARD

Dear Shareholders, Partners, and Colleagues,

Over the past year, NSD boosted its standing as a systemically important infrastructure of the Russian financial market. The value of assets in custody at NSD increased 17.1% year-on-year to the equivalent of RUB 52.67 trillion. As CSD, NSD sees sustainable growth in its complementary services that add value to clients, namely: Trade Repository's services (15.2 million OTC derivative trades reported to the Trade Repository for the amount of RUB 558.5 trillion); collateral management services in repo trades (RUB 20.3 trillion); cash settlement of on-exchange and OTC transactions (RUB 532.9 trillion, including RUB 48.4 trillion worth of 'delivery-versus-payment' transactions); SWIFT Service Bureau services; electronic data interchange services; and information products and services (including Valuation Center services). NSD proactively researches and implements innovative solutions, in particular those relating to automation of business processes, distributed ledger technology, etc.

We have made much progress in our financials: our net profit and fee and commission income jumped 356% and 16.5%, respectively, against 2018. Our cost-to-income ratio (CTOI) is higher than the target range and amounted to 66.2% based on the results of 2019.

The Customer Satisfaction Index is still at a high level of 8.98 points, similar to the level reached in 2018.

The approval in 2019 of NSD's Development Strategy 2024 by NSD's Supervisory Board was a key milestone for the company. The Strategy is an intrinsic part of the Moscow Exchange Group's Development Strategy, which implies that the development of all of the Group companies will be synchronized and benefit from synergies.

The Strategy 2024 focuses on three key areas of growth: a) settlement and custody infrastructure; b) new services and customer segments; and c) data assets.

I would like to thank our employees, members of the Supervisory Board and Customer Committees, and our shareholders and partners for their support to the company. My confidence in successful implementation of NSD's new strategy stems from our strong performance over the company's entire history.

Eddie Astanin,
Chairman of the Executive Board, NSD

ABOUT NATIONAL SETTLEMENT DEPOSITORY

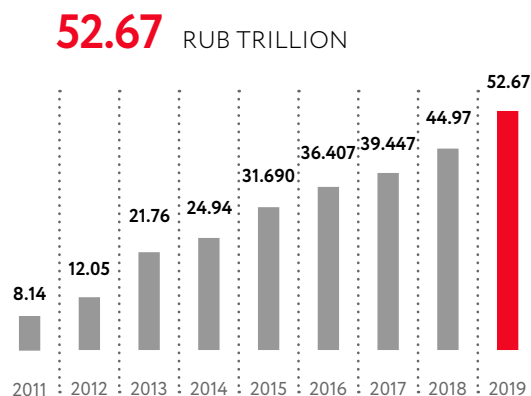

National Settlement Depository (NSD) is the central securities depository (CSD) of the Russian Federation. NSD offers a wide range of services to its clients, including depository services, payment services, registration of OTC transactions, information services, collateral management services, and IT services.

The Bank of Russia recognized NSD as a systemically important financial market infrastructure: a systemically important central securities depository, settlement depository, and trade repository. The NSD Payment System is a systemically and nationally important payment system. Currently, NSD has accounts with CSDs and ICSDs in seven countries, as well as correspondent accounts with major foreign and Russian banks. NSD services securities issued by companies representing more than 40 countries.

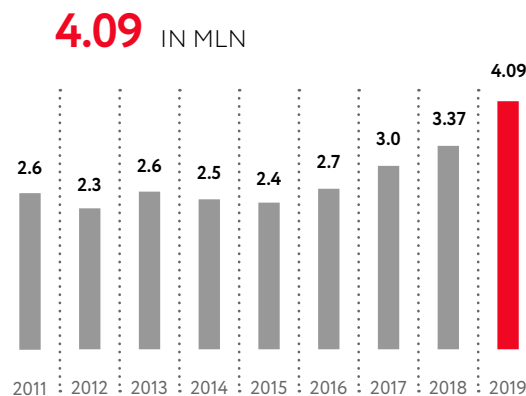

In 2019, the value of assets held in custody at NSD increased by RUB 7.70 trillion (17.1%) to RUB 52.67 trillion. The most increase was realized thanks to Russian stocks (+RUB 4.5 trillion), which now account for slightly below 50% of the total value of assets in custody at NSD.

The total number of securities issues in custody at NSD increased by 16.6% to 23.4 thousand, inclusive of the number of non-Russian securities issues and Russian Ministry of Finance's Eurobonds which surged 23.3% to 15.5 thousand (non-Russian stock issues and non-Russian corporate bond issues in custody at NSD increased by 25% each). The number of Russian securities issues rose by 10% to 7.9 thousand.

STRATEGY 2024

In 2019, NSD's Supervisory Board approved NSD's strategy for the next five years Strategy 2024.

NSD's Mission – to be a reliable and trusted provider of high-tech infrastructure solutions and contribute to the implementation of the national policy aimed at the development of innovative technologies in the financial market.

Vladislav Bodnarchuk,
Director of Marketing
and Sales Department

Strategic Vision – to become the infrastructure foundation of the Russian financial market ecosystem, the regional leader which provides services for various types of assets and complimentary services creating added value for market participants.

The Strategy 2024 focuses on three key areas of growth: a) settlement and custody infrastructure (our key business); b) new services and customer segments; and c) data assets (the «new oil»).

SETTLEMENT AND CUSTODY INFRASTRUCTURE

Maintaining and ensuring evolution of NSD's positions as the leading provider of post-trade services contributing to the competitiveness of the Russian financial market infrastructure:

- Maintenance of operational reliability
- Infrastructure modernization: infrastructure consolidation, collateral management and segregated account structure
- Integration into the global market: regional ICSD in the Eurasian space

As part of the **settlement and custody infrastructure** area of focus, our strategic priority is to maintain and ensure evolution of NSD as CSD and regional leader in the post-trade services market, integrated into the global financial market, both in the West and in the East. We are seeking to become a regional hub: thanks to our links with the global CSDs, foreign investors may invest not only in the Russian market, but also in the markets of Russia's neighbouring countries. NSD's settlement services will also be improved, with clients getting access to DVP settlement in 'central bank money'.

We see new opportunities in building platform-based solutions for the market. We all know what Internet is, virtually all companies across the globe use it in their business, designing business apps for users. The Strategy 2024 seeks to transform NSD into an «infrastructure Internet» of the Russian financial market. By using NSD's «infrastructure Internet», our clients and partners will be able to grow their businesses efficiently and in the interests of their customers, to increase the margin of their transactions (by tapping into new revenue streams and/or reducing costs), and to safely keep their assets at NSD.

The **development of new services and customer segments** involves development of products and services in the traditional B2B segment. We have been actively developing project Transit 2.0 that seeks to add more corporate clients to the Group's client base. In addition, our plans are to enter a new B2B2C (business-to-business-to-customers) segment, as part of the Marketplace project in which NSD will play the key role of Registrar of Financial Transactions (RoFT).

NEW SERVICES AND CUSTOMER SEGMENTS

Strategic Priorities

Diversification of income by offering new products and services that add value to clients:

- Launch of custody and settlement services for marketplaces/online trading platforms, pension and insurance industry, sub-federal and corporate segments
- Management of new collateral types, and digital asset servicing
- Implementation of complementary services and innovative technologies, including blockchain technology

•

3

4

5

6

7

8

9

10

The Strategy provides that NSD will diversify its sources of income by developing and marketing new products and services that add value to both existing and new clients, including corporations. In particular, the Strategy focuses on:

- Development of the clearing and collateral management functionality for such creditors as regional governments and corporations.
- Creation of ecosystems based on the financial messaging platform, NSD Payment System, and blockchain platforms for transactions in digital assets (tokens). This initiative contributes to the national policy aimed at digitalization of Russia's economy.

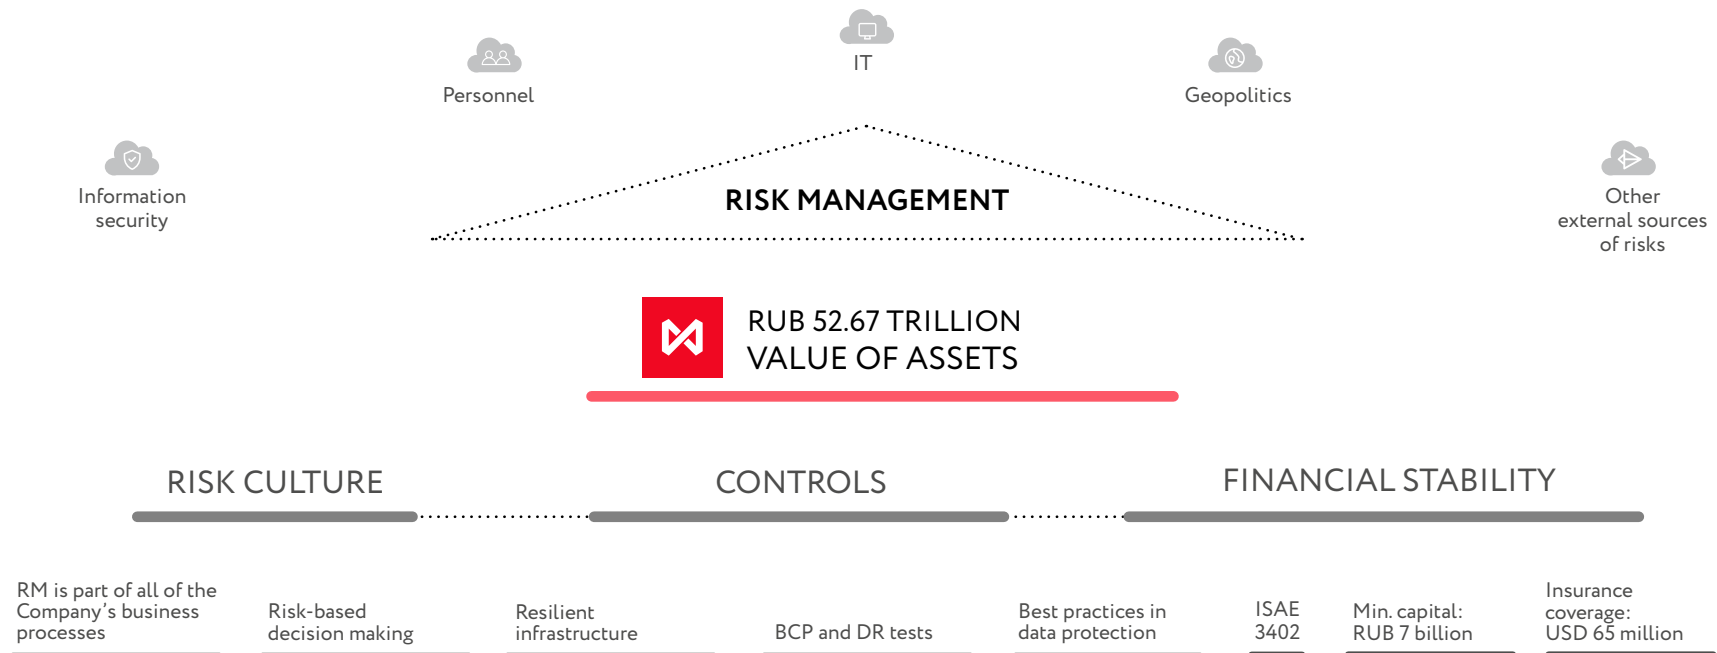

The development of data assets involves roll-out of new products and services based on the unique data (BigData) being accumulated by NSD, and development of the Valuation Center and RegTech solutions.

DATA ASSETS

Unlocking the potential of data as the 'new oil':

- Development of NSD's information services as the 'gold standard' for financial market players
- BigData-based analytical solutions
- RegTech development

The new Strategy has specific focus on IMPROVEMENT OF THE RISK MANAGEMENT SYSTEM. NSD remains the safekeeper of all assets in the Russian market, and NSD's systemic and national importance guides our approach to risk management tools and practices. Thanks to our expertise, we are capable to manage all types of financial and nonfinancial risks in NSD's business. The key areas of focus of our Strategy include efforts to ensure that NSD meets the required standards in business continuity and information security.

DEPOSITORY SERVICES

By the end of 2019, the value of securities in custody reached RUB 52.67 trillion, a 17.1% increase against 2018 (RUB 44.97 trillion). The number of securities issues in custody at NSD increased by 16.6%, from 20.1 thousand in 2018 to 23.4 thousand in 2019, while the number of non-Russian securities issues and Russian Ministry of Finance's Eurobonds surged 23.3% to 15.5 thousand from 12.6 thousand in 2018.

**Denis Buryakov,
Managing Director
for Depository Operations**

The value of Federal Loan Bond (OFZ) balances in foreign nominee accounts reached RUB 2.8 trillion by the end of the reporting year, which represents a 61.7% increase against 2018 (RUB 1.7 trillion).

Settlement Services

In 2019, the number of OTC trades settled on a 'delivery versus payment' (DVP) basis increased by 76 thousand (+36.1%). The volume of transactions surged RUB 1.37 trillion or 17.2% against 2018. In 2019, clearing participants submitted instructions in such currencies as USD, RUB, GBP, EUR, CNY, and CHF.

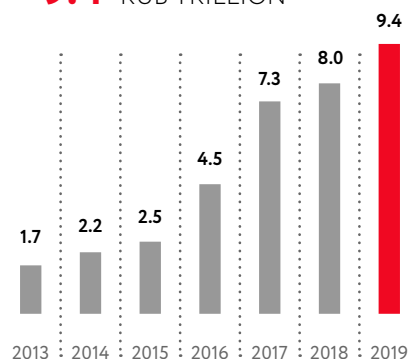

Number of clearing transactions (DVP), (million)

0.29 MILLION

Value of clearing transactions (DVP), (RUB trillion)

9.4 RUB TRILLION

There was significant interest in FOP and DVP transactions at ICSDs, which increased by 12% and 72%, respectively. In total, clients made 156 thousand transactions in 2019, as compared to 117 thousand in 2018.

NSD continues developing services focused on handling foreign assets and working in global markets. In 2019, new clients signed up for the service «Individual accounts with ICSDs». Currently, NSD holds 11 segregated accounts with Euroclear Bank. The key advantage of the service is the opportunity to make back-to-back settlements, implying that a trade is funded by the difference between the receipt and delivery of securities. Additional advantages include more services for dealing with ICSDs (such as technical netting, linked transactions, and instruction prioritization), which contribute to a higher liquidity and make it possible to fund the trade right before its settlement, rather than in advance.

The instruction prioritization and linked transactions services allowing to manage the order of execution of instructions are used by NSD's clients on a daily basis, and there was a significant growth in the number of client transactions using these services. As of the end of 2019, the total number of instructions settled using the instruction prioritization and linked transactions services (pooled instructions) reached 27,661, which is 5.5 times more than in 2018.

In late 2019, NSD got prepared for the launch of DVP-2/DVP-3 settlements through clients' correspondent accounts with the Bank of Russia, so that in 2020, clients could settle their DVP trades through their correspondent accounts with the Bank of Russia either on a DVP-2 basis (cash netting only) or DVP-3 basis (both cash and securities netting), in addition to the DVP-1 model supported by NSD since 2015.

The number of DVP transactions in Bank of Russia's money (debits and credits from/to clients' correspondent accounts with the Bank of Russia) in 2019 rose significantly against 2018: the number of transactions reached 1,014, up from 298 in 2018. The amount of DVP transactions in Bank of Russia's money reached RUB 281 billion, as compared to RUB 16.8 billion in 2018.

Issuer Services

As CSD, NSD is responsible for centralized safekeeping and centralized recordkeeping of bond issues offered through Russian exchanges or in the OTC market, provides bond offering-related depository services to issuers, registers commercial papers, and performs the functions of vote counting commission at bondholder meetings.

NSD improves electronic communication channels designed to communicate with issuers for the purpose of supporting bond offerings and trading and the conduct of corporate actions, by optimizing service processes and making issuers' access to services simpler and faster.

Various matters relating to communication channels and fees for issuer services are discussed with issuers within NSD's Securities Services Development Committee and working groups.

Services Supporting Corporate Bond Issuance and Trading

Bond issues in custody

926

Bond issues accepted for servicing over the year

In 2019, 926 corporate bond issues with the total value of RUB 29.809 trillion were accepted for servicing, as well as 14 sub-federal and municipal bond issues with the total value of RUB 96.5 billion. As compared to 2018, the total number of bond issues accepted for servicing increased by 49%.

The bond issues accepted with issue-related documents in electronic format accounted for 48% of the total number of bond issues accepted for servicing, as compared to 33% in 2018.

For the first time, NSD accepted for servicing and supported the offering of an issue of structured bonds issued by LLC «SFO BCS Structured Notes».

General Meetings of Bondholders

Holding of General Meetings of Bondholders

50

In 2019, bond issuers held 50 general meetings of bondholders (as compared to 109 and 76 meetings in 2017 and 2018, respectively). The decrease was due to the reduced need for issuers to make amendments to issue-related documents, including amendments relating to debt restructuring affecting bond issues.

Servicing of Bonds and Eurobonds of the Ministry of Finance of Russia

NSD is the head depository responsible for centralized safekeeping and servicing of bonds and Eurobonds issued by the Ministry of Finance of Russia.

1

2

3

4

5

6

7

8

9

10

11

In 2019, NSD supported the offering of four Eurobond issues of the Ministry of Finance with the total value of USD 5.5 billion and EUR 0.75 billion.

For the first time, NSD's clients holding Ministry of Finance's Eurobonds were offered an option to choose the currency in which they wished to receive income from the Eurobonds, by giving specific instructions using the scheme devised by NSD.

The offering by the Ministry of Finance of a variable coupon Federal Loan Bond (OFZ) issue accrued interest on which is calculated based on the RUONIA rate became a highlight of the year. Information on accrued interest calculated by NSD on a daily basis is available through NSD's information services.

Registration of Commercial Papers

As CSD, NSD registers commercial paper issues. No prospectus is needed for registration of commercial papers, and commercial papers may only be offered through private placement.

In summer 2019, NSD, together with Moscow Exchange, offered issuers the opportunity to submit documents required for registration of a commercial paper issue to NSD via Issuer User Account. Since the launch of Issuer User Accounts, NSD has registered 5 commercial paper issues and one commercial paper program.

Commercial paper issues

In total, in 2019, 43 commercial paper issues with the total value of RUB 14.502 billion were registered. The maturity of the issues varies from 3 months to 5 years. Also, NSD registered 10 commercial paper programs valued, in aggregate, at RUB 560 billion. In 2019, the offering of 29 commercial paper issues valued, in aggregate, at RUB 9.753 billion was completed; 11 commercial paper issues valued at RUB 0.54 billion were redeemed.

In addition, the debut USD commercial paper issue for USD 17 million was offered in 2019. The issue was accepted for servicing at Euroclear.

Assistance to Securities Holders in Exercising Rights Attached to Securities

NSD offers the wide range of services to assist its clients and their customers in exercising rights attached to securities held by them. Interaction with market participants in connection with their exercise of rights attached to securities held by them and data interchange are maintained using structured formats that meet the international standards, thanks to which all market participants are able to automate and optimize their processes and reduce their operational risks.

Corporate Action Processing

In 2019, NSD automated the process of conversion of Russian securities and migrated to electronic data interchange with registrars, issuers, and clients in connection with corporate actions, using the international messaging formats.

In addition, a new mechanism for repurchase and early redemption of bonds by issuers was implemented, and an option was offered to make settlements via NSD, involving submission of instructions to NSD and securities blocking.

As for non-Russian securities, in 2019, NSD completed a major project, automating securities and cash transactions in connection with corporate actions, providing visualization of print forms and transaction details in NSDirect in a user-friendly format, and offering structured CA statements to clients.

48

■ Number of CAs involving the exercise of the preemptive right
— Value of CAs involving the exercise of the preemptive right (RUB billion)

Number of meetings held using the E-voting service

19

In 2019, 4,082 meetings of securities holders using the e-proxy voting technology, 334 corporate actions involving the buyback of RUB 237 billion worth of securities, and 48 corporate actions involving the exercise of the pre-emptive right, as the result of which securities were purchased for approximately RUB 46 billion, were initiated.

In the reporting year, in total, 16,134 corporate action events were initiated for Russian securities, a 6% increase against 2018, while the number of corporate action events initiated for non-Russian securities increased by 27% to reach 32,007. The increase in the number of corporate action events was mainly due to new securities issues accepted by NSD for servicing. The greatest increase was in the number of CAs involving payment of coupon or dividend income from securities.

In 2019, the amount of income and redemption proceeds paid on securities through NSD decreased against 2018, mainly due to the fact that, in 2018, Russian issuers redeemed or repurchased a number of large bond issues. For Russian securities, the total amount paid was RUB 16.6 trillion, as compared to RUB 19.3 trillion in 2018, while for non-Russian securities, the total amount paid was the equivalent of RUB 0.9 trillion vs RUB 1.0 trillion paid in 2018.

In 2019, 19 general meetings of shareholders were held using the E-voting service. In particular, NSD's E-voting service was offered to shareholders at the general meetings of Moscow Exchange, Novolipetsk Steel (NLMK), Gazprom Neft, Sberbank, NSD, IC RUSS-INVEST, Rostelecom, ALROSA, and RusHydro. In 2019, 4,446 shareholders participated in general meetings using the E-voting service. Most of them identified themselves through the Public Services Portal. The number of shareholders voting using NSD's E-voting service increased more

than 6 times against 2018. Through the E-voting service, shareholders may vote remotely via the single interface at general meetings of different issuers. Issuers using the service provide their shareholders with extra options to participate in general meetings through the Internet.

In 2020, NSD plans to modernize the process of compiling a list of securities holders for Russian securities, which will include migration to new e-list formats agreed upon with market participants. Other plans include expansion of NSDirect's functionality for clients and automation of corporate actions involving reorganization of issuers, which will simplify data interchange between NSD and issuers/registrars and allow NSD to provide clients with CA confirmations using the international formats. NSD also plans to automate voluntary conversions of securities and the delivery of issuer-provided corporate information to securities holders.

In 2020, NSD will continue its efforts to improve corporate action processes for both Russian and foreign securities. In particular, improvements will be made to the process of providing information concerning CAs; statements to be sent to clients upon completion of CAs will be enhanced in accordance with the ISO standards; and such statements will be made available to clients via the CA Web-client.

NSD as a Withholding Agent

In accordance with the Russian Tax Code, since 2014, NSD has been acting as a withholding agent when paying out income on Russian equities and bonds.

In the cases provided for by law, NSD calculates, withholds and pays to the budget of the Russian Federation corporate or personal income tax in accordance with the provisions of the Russian Tax Code and double taxation treaties of the Russian Federation. As a securities depository, NSD acts as a withholding agent when paying out income on securities to foreign organizations or foreign nominee holders, as well as when paying out dividend income to Russian organizations on shares held in owner securities accounts with NSD.

Tax Management

As part of withholding agent services provided when paying out income on foreign securities, NSD, since 2014, has been providing tax exemptions and reliefs under double taxation treaties. When paying out income on depositary receipts, NSD acts as an intermediary in the chain of nominee holders of DRs and provides withholding agents with information required for income beneficiaries to enjoy tax exemptions or reliefs in accordance with the Russian Tax Code.

When providing tax exemptions or reliefs on U.S. securities that fall under Chapters 3 and 4 of the U.S. Internal Revenue Code, NSD acts as a qualified intermediary for FATCA purposes, which allows clients to hold U.S. securities and enjoy tax exemptions or reliefs on income paid, at a lower cost than when holding such securities on accounts held directly with ICSDs.

NSD's withholding agent services for foreign securities have allowed NSD's clients to enjoy tax benefits of 13% to 100% of the amount of tax, depending on the securities and the tax jurisdiction in which the securities were issued.

INFORMATION SERVICES

2019 was the most successful year in the history of NSD's information services. The number of contracts for delivery of information products to market participants surged 70% against the previous year to reach 900, while the total volume of information services provided by NSD over the last five years increased seven times.

Alexander Diakovskiy,
Chief Data Officer

The key driving factors behind the growth of NSD's Information Center were the expansion of the product range and growing demand for NSD's products and services from market players. The number of information products offered to clients almost doubled year-on-year, from 11 to 21, while the number of products used by an average user increased from 2.3 to 3.8. For the first time in the history of NSD's Information Center, the sales of value-added products have overtaken the sales of NSD's conventional Reference Data services.

2019 marked a turning point in the growth of NSD's Information Center. Early in the year, NSD launched a new product — valuation of Russian Ministry of Finance's Eurobonds — that was immediately highly praised by market experts and by the Russian Federal Treasury and subsequently officially accredited by the Bank of Russia. In 2019, with the

introduction of advanced valuation methodologies for mortgage-backed securities, floaters, corporate Eurobonds, and non-rated bonds, data offered by the Valuation Center made it possible for market participants to measure the value of almost any debt instruments available in the Russian market.

The implementation of modern approaches to data management at NSD has become a new and promising area of focus for the Information Center. In 2019, the Strategy Committee of NSD's Supervisory Board approved a concept of monetization of data (Big Data) collected by NSD. The company started rolling out an end-to-end data stewardship system at the level of NSD's business lines, as well as testing hypotheses and prototypes of analytical products based on NSD's data.

TRI-PARTY SERVICES

In 2019, the amount of liquidity injection through the flagship product of NSD's tri-party services – repo trades with the Russian Federal Treasury – reached RUB 19.9 trillion, up from RUB 17.3 trillion in 2018. The reporting year saw a slight decrease in structural liquidity surplus in the banking sector, as compared to 2018 (RUB 3.026 trillion on average versus RUB 3.332 trillion) and a gradual decline in interest rates.

Alina Akchurina,
Managing Director for Collateral
Management and Tri-Party Services

The Federal Treasury was responding to changes in the market environment in a flexible manner, offering more than one-third of its liquidity through repo trades at a floating rate. Long-term repos (for more than 30 days) accounted for 75% (RUB 118.6 trillion out of RUB 148.5 trillion). The average maturity of Federal Treasury's repos was 7.41 days, as compared to 6.17 days in 2018.

Starting from October 2019, Federal Treasury's repos with collateral management by NSD became available also through Moscow Exchange's OTC terminal. By January 2020, the percentage of trades made through the OTC terminal exceeded 7% of the Federal Treasury's open position in repos and tends to grow rapidly.

St. Petersburg became the first Russian region to connect to NSD's Collateral Management System (CMS). The pilot repo auction of the St. Petersburg Finance Committee took place on 5 July 2019, and the total amount offered by them through repos reached RUB 87.1 billion. The use of repos involving NSD's CMS allows Russian regions to expand the range of instruments available to them for investing public funds that are not immediately required, reduce risks arising from depositing such funds in unsecured bank deposits, get access to a larger pool of credit institutions willing to make repo trades, and, as a result, benefit from a higher yield of liquidity management operations.

The amount of Bank of Russia's repo trades involving NSD's CMS continued its downward trend in 2019, including due to the market availability of cheaper money than money offered by the lender of last resort: their amount reached the all-time low level of RUB 216.37 billion.

Promotion of CMS services in the OTC market helped increase the amount of interbank repos involving CMS four times against 2018, with the average daily open position being RUB 50 billion as at the year-end. Thanks to the e-confirmation exchange functionality offered by the CMS Web-client for repo trades involving CMS, along with the automated process of settlement instruction generation, the time required to process OTC transactions by clients' back offices decreased. Multiple sources of market

values of securities for collateral valuation purposes make it possible to use more than 23 thousand securities serviced by NSD in repo trades. NSD's clearing system supports the repo rate change and security replacement options, thanks to which clients may hold their open repo positions in CMS, with either a fixed or an open-end settlement date of the second leg of their transactions, over a lengthy period of time.

The number of users of the Single Account service launched in December 2018, which allows automating standard asset transfers between clients' positions held with CCP NCC and NSD, doubled to reach 21, with a quarter of them representing a new user category (issuers). The Single Account service helped clients cut their funding costs, speed up the movement of assets, and reduce operational risks. Moreover, it became possible for customers of clearing participants also to automate their cash transfers between accounts within the Moscow Exchange Group.

Number of DVP transactions

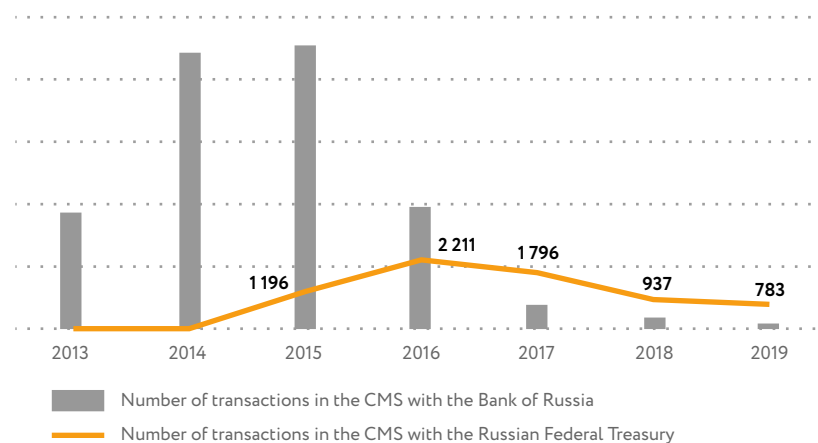

The volume of clearing services for DVP settlements reached the all-time high in 2019, in terms of both the number of transactions (286 thousand, a 37% increase against 2018) and the amount of transactions (the equivalent of RUB 9.4 trillion). Of those transactions, transactions settled on a DVP-2 basis accounted for 91%.

Transactions in foreign currencies accounted for 70% of the total number of transactions. In 2019, market participants benefited from adjusting their business solutions to reflect the relevant amendments made to Federal Law No. 173-FZ dated 10 December 2003 «On Currency Regulation and Currency Control» in late December 2018 and the clarifications issued by the Bank of Russia in January 2019 regarding settlement of cleared securities trades.

By January 2020, NSD got prepared (in terms of both technology and compliance) to settle trades on a DVP-2/DVP-3 basis, cleared by NSD, in Central Bank money. This allowed NSD to offer its clients a contemporary and secure settlement method that meets Principle 9 of the Principles for Financial Market Infrastructures.

The further plans for NSD's Collateral Management System development include expanding services to new financial market segments and offering new infrastructure services.

Number of transactions in the CMS

Value of transactions in the CMS, RUB trillion

REPOSITORY SERVICES

2019 saw a steady increase in both the number and the amount of trades registered by NSD's Trade Repository: 15.196 million trades for the total amount of RUB 559 trillion, an increase of 2.679 million contracts (+21%) and RUB 124 trillion (+28%) against 2018, respectively. Forex instruments and repo contracts remained the main drivers behind that growth.

Anastasia Kiseleva,
Managing Director
for Repository Services

NSD continued working on the project to establish the Registrar of Financial Transactions (RoFT), the key component of the Bank of Russia's Marketplace ecosystem. Significant improvements were made to the RoFT system's functionality, including data processing, transaction registration, and user information functionality. Further steps were taken to have the RoFT platform integrated with Russia's Public Services Portal.

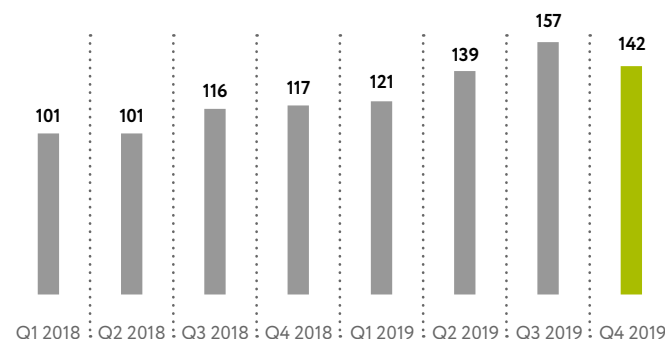

RoFT's readiness for registration of transactions was demonstrated by the integration testing of its functionality together with Marketplace project participants. Currently, regulatory documentation is being drafted which is necessary for NSD to obtain RoFT status.

As part of its core business, the Trade Repository offered a number of services to facilitate clients' interaction with the Trade Repository and to help clients cut their operating costs:

- The 'Reporting Agent' service allows clients who do not have any experience in reporting their trades to the Trade Repository (e.g., corporations or professional securities market participants) to outsource their reporting obligation to NSD. As part of the service, NSD examines a client's primary contract documents and, if so requested by the client, prepares an easy and ready-to-use report. A 'delegated trade reporting' service to report trades to European trade repositories is in the pipeline and will soon be offered to clients.
- Drawing on the experience of developed European and U.S. markets, a base functionality was built for a new service integrating the single fair value measurement methodology (mark-to-market or MTM) for OTC contracts, implemented within the Moscow Exchange Group together with Central Counterparty National Clearing Centre (CCP NCC). The initiative applies CCP NCC's methodology and capabilities to measure an MTM value using data reported to the Trade Repository. The service allows clients to use the single methodology to measure the fair value of OTC derivatives. The service may be used to assess risks, prepare analytical reports, and delegate the MTM reporting obligation.
- NSD offered a service designed to control registration actions of a reporting agent. Having signed up for the service, clients who report their trades through a reporting agent are automatically issued a statement regarding their trades registered by the Trade Repository, in which they are identified as parties to the relevant contracts. Before, such statements were issued to message senders only.

Amount of trades (RUB trillion)

142 RUB TRILLION

- Thanks to the implementation of advanced technologies and Web-service optimization, the performance of the Trade Repository's WEB-client was improved. Testing demonstrated that the average response time to a user action in the interface was 1 to 4 seconds, in line with global best practices for WEB applications.

As part of the efforts to develop analytical information products on a commercial basis, NSD's Trade Repository:

- Together with the National Finance Association (NFA), drafted an OTC repo market report template to be issued to market participants on a regular basis
- In line with global best practices, the Trade Repository drafted a pilot commercial report template intended to disclose summarized figures for contracts, broken down by financial product type and financial sector, which will be distributed through Moscow Exchange's information channels. As a result, all financial market participants will get access to information that is inaccessible now.

PAYMENT SERVICES

In 2019, NSD continued maintaining the high quality of existing services and introducing new ones to the NSD Payment System. Not only bank account (payment) services are a separate business line, but they are also integrated into NSD's depository and clearing operations, thus creating all-inclusive services for clients.

Svetlana Gryanchenko,
Director of Operations Department

In 2019, the following changes were made to the payment infrastructure, which helped improve bank account (payment) services provided to NSD's clients:

- Migration to the Bank of Russia's new automated workplace (KBR-N). This project was implemented due to the transition of the reconciliation of electronic payment messages and electronic information messages to automated systems of credit organizations in accordance with the requirements to information protection in the Bank of Russia Payment System.
- Works were completed to ensure that the NSD Payment System is prepared (in terms of compliance and technology) to act as a settlement platform for the financial services marketplace. The adoption of a Federal Law that would govern operations of e-platforms is forthcoming.
- A decision was taken to launch C2B payments in the Bank of Russia's Faster Payments System (FPS). NSD acceded to the Rules of the MIR Payment System. A project was launched to connect to the FPS.
- New foreign currencies were added to the basket of currencies to support clients' settlements.
- The number of corporate clients making payments through their bank accounts in the NSD Payment System increased.
- The SWIFT GPI service was implemented. NSD is the first CSD to adopt SWIFT GPI.

The benefits offered by SWIFT GPI include:

- Faster and more transparent payments via SWIFT.
- End-to-end tracking of global payments via SWIFT.
- Online tracking of clients' payments (SWIFT MT 103).

In 2019, the amount of cash transfers in Russian rubles and foreign currencies decreased 9.6% to RUB 303.6 trillion against 2018 (RUB 335.7 trillion).

In 2019, the number of client transactions was 1.22 million, a 5.8% increase against the previous year (1.16 million). The number of transactions in Russian rubles decreased 5.4% from 0.87 million (2018) to 0.82 million (2019), while the number of transactions in foreign currencies surged 39.4% from 0.29 million (2018) to 0.40 million (2019).

The decrease both in the amount of payments through the NSD Payment System and in the number of transactions in Russian rubles was due to market volatility, shorter operating hours for payments via the Bank of Russia Payment System, and the decrease in the number of market participants.

In 2019, the Canadian dollar (CAD) was added to the basket of currencies available to clients for their transactions.

In terms of the volume of payment transactions, capitalization, and the number of clients in the financial markets, NSD is one of Russia's largest settlement non-banking credit institutions and a systemically and nationally important payment system.

In 2019, the Risk Management Committee for Payment System assessed the risk management system implemented in the NSD Payment System.

The assessment showed that the risk management system implemented in the NSD Payment System met the applicable criteria.

The assessment corroborated the findings of the previous assessment that the NSD Payment System operator ensured compliance with the requirements of the Russian laws and Bank of Russia's regulations which set forth the rules governing operation of payment systems, and observed the Principles for Financial Market Infrastructures applicable to NSD.

In 2019, further efforts were made to improve the governing documentation of the NSD Payment System, including documentation governing such crucial aspects as continuous operation and risk management. In particular, NSD approved the amended and restated NSD Payment System Rules; new versions of regulations for risk monitoring in the NSD Payment System; and a procedure for risk management assessment in the NSD Payment System.

IT SERVICES

As the core of the financial market, NSD gives particular attention to developing a reliable IT platform, implementing partnership programs, and ensuring a high level of information security.

Alexander Nam,
Managing Director
for Technological Services

SWIFT Service Bureau

In 2019, NSD's SWIFT Service Bureau was certified for compliance with the Shared Infrastructure Programme (SIP) 2019. Compliance with the SIP requirements is evidence of the high level of security and reliability of NSD's SWIFT Service Bureau's operations.

In 2019, 7 new clients signed up for NSD's SWIFT Service Bureau's services, and the total number of Service Bureau users reached 71.

The Service Bureau's clients sent 5,057 thousand SWIFT messages via NSD, a 27% increase against 2018.

Transit 2.0

As at the end of 2019, 15 corporations and 11 banks (including 8 systemically important ones) use the Transit 2.0 platform. The platform offers money transfers in Russian rubles without any restrictions and the limited functionality of forex money transfers and currency controls.

FINTECH AND DECENTRALIZED TECHNOLOGY

In 2019, NSD continued building its capacity and expertise in digital technology and blockchain usage in post-trade services.

For the purpose of enhancing Russia's national commodity market infrastructure, NSD in cooperation with Russian Agricultural Bank launched a pilot project to digitalize and tokenize grain stocks and to trade grain tokens using blockchain technology.

As part of the pilot project, NSD acted as blockchain platform operator responsible for the custody of digital rights to grains and clearing of trades. In the future, the new model

would help minimize risks and costs in the commodity market and improve the effectiveness of trades and settlements thanks to the use of advanced technology. The model could be upscaled to cover other commodities, such as metals and coal.

For digital technologies to be rolled out in the financial and commodity markets on a commercial scale, it is vital to have proper regulation in place, including laws and related secondary legislation.

Client Services

In 2019, NSD continued to develop electronic communications with clients: NSD's clients were offered a new, state-of-the-art communication channel, Web-client for Depository and Clearing Services (DCS Web-client), the main benefits of which are modern and user-friendly interface and usability.

In 2019, NSD launched its new web site optimized for desktops, tablets, and mobile devices, with effective navigation design and a modern search engine.

The web site contains a self-service technical support portal that allows users to submit and track support requests and view the request history.

In 2019, further improvements were made to the User Account (LKU), the service designed to submit documents to NSD in electronic format, track their statuses in real-

time, and view the full list of submitted documents, including the dates when relevant actions were taken on those documents. In 2019, 55% of the documents submitted to NSD by clients were submitted through their User Accounts.

Active communications with clients were maintained both through physical seminars and webinars: in total, 12 seminars and webinars were provided in 2019, with more than 1,000 participants.

International Cooperation

The main goal of NSD's international activities is to widen the scope of opportunities available to the company's clients

INTEGRATION INTO THE GLOBAL FINANCIAL INFRASTRUCTURE AND COOPERATION WITH THE INTERNATIONAL COMMUNITY

NSD's key goals in the global arena are to build a positive reputation of the company and Russian securities market, promote the Russian securities market, strengthen relationships with foreign partners, and share experience and expertise in various financial areas.

To those ends, NSD holds regular bilateral meetings with its partners, participates actively in a number of international organizations, attends major international forums and conferences, and acts as a member of some intergovernmental committees and working groups.

Bilateral meetings

In February 2019, in Minsk, NSD's representatives met with officials from the Ministry of Finance of Belarus to discuss certain initiatives and cooperation plans between the systemically important financial market infrastructures of Belarus and Russia.

A number of key meetings with partners also took place on the sidelines of SIBOS 2019, including with CSDs of South Korea, China, Vietnam, South Africa, and Taiwan, as well as with Euroclear and Clearstream.

5

6

7

8

9

10

11

In addition, major meetings with representatives of CSDs of China, South Korea, Turkey, and some CIS countries (Belarus and Georgia) took place during the Moscow Exchange Forum 2019.

Multilateral cooperation formats

In 2019, as a member of the Association of Eurasian Central Securities Depositories (AECSD), NSD took steps to strengthen relationships across the region, which contributed to greater integration between AECSD members.

A traditional training seminar for AECSD members took place in June 2019 in Dushanbe, Republic of Tajikistan. The seminar was attended by representatives of 9 countries: Armenia, Belarus, Kazakhstan, Kyrgyzstan, Uzbekistan, Russia, Tajikistan, Turkey, and South Korea. Among the guests were also representatives of the Stock Exchange, Ministry of Finance, and National Bank of Tajikistan. For the first time in the history of such seminars, speakers from NSD and Moscow Exchange participated in the seminar by video conferencing (Webex), which allowed them to provide comprehensive information in response to all questions raised by seminar participants.

The Joint Conference of the AECSD and the International Association of Exchanges, named "Integration Processes on Financial Markets: Eurasia and Global Economy", took place in September 2019 in Bishkek, Kyrgyzstan, featuring senior executives and leading experts in stock exchange/depository operations from CIS and other countries.

The conference was attended by more than 100 delegates, including representatives of CSDs from CIS countries, ICSDs, stock exchanges, regulators, investment banks, analytical agencies, and international organizations, as well as representatives of the financial sector of China, Turkey, United Kingdom, Iran, South Korea, Belgium, and other countries.

By tradition, the conference involved the Annual General Meeting of AECSD members attended by representatives of AECSD members and observers. The Meeting participants discussed prospects and outcomes of various international initiatives, such as the 2019 conference of the World Forum of CSDs (WFC) in Morocco and the forthcoming WFC conference 2021 in the Czech Republic, the Single Disclosure project, the World CSD Fact Book, the E-learning initiative, successful cooperation with the Asia-Pacific Central Securities Depository Group (ACG), and further cooperation with other regional CSD associations. AECSD members were presented a number of projects: further improvement of the web site, trainings and seminars, new missions and members of working groups, etc. By a decision taken by the AECSD members, the Central Depository of Armenia (CDA) took the chair in the AECSD, and Vagan Stepanyan, President of the CDA, became the new Chairman of the Association. The next international conference of the AECSD will take place in the Republic of Armenia in September 2020, and the next international training seminar of the AECSD will be hosted by the Republic of Belarus in June 2020.

On 14 November 2019, in Moscow, the AECSD and the Advisory Committee on Financial Markets of the Board of the Eurasian Economic Commission (EEC) signed a Memorandum of Cooperation. The signing ceremony was attended by Timur Zhaksylykov, Minister for Economics and Financial Policy of the EEC, and Vagan Stepanyan, Director of the Central Depository of Armenia, Chairman of the AECSD. On behalf of NSD acting as AECSD Secretariat, the event was attended by Maria Krasnova, Deputy Chairman of NSD's Executive Board. The parties agreed to establish long-term cooperation in the field of depository activities, improve the custody systems in securities markets, and develop financial market infrastructures. The signatories noted that joint efforts and expanded cooperation were extremely important for the development of integration processes in the Eurasian region, putting in place integrated securities market infrastructure, and introducing new financial technologies. Moreover, it was noted that the depositories of the Eurasian Economic Union (EAEU) member countries play the key role in setting the stage for the implementation of the Concept for the Common Financial Market of the EAEU, and that their experience and expertise could be extensively used in this process.

WFC

As a member of the Board of the World Forum of CSDs (WFC), NSD plays an active role in its work. In particular, NSD's representatives attended the WFC Conference in Marrakesh, Morocco, in April 2019. The WFC 2019 program was focused mainly on the impact new technologies have on CSDs' principal business. The Conference participants discussed various IT-related aspects, including prospects of cloud computing, cyber security, robotics, and artificial intelligence. At the joint session of regional CSD associations, their general secretaries discussed the recent trends and challenges faced by securities markets across the regions.

As part of the WFC 2019, meetings of the regional CSD associations were held. In particular, the AECSD arranged a regional meeting attended by its members from Armenia, India, Kazakhstan, South Korea, Russia, and Turkey. The meeting participants discussed recent business developments and were updated on the AECSD's activities and preliminary results of the WFC's E-learning initiative development. The meeting was wrapped up with a discussion of hot topics to be addressed by the forthcoming Annual General Meeting of the AECSD.

Other activities

NSD also develops contacts with key players in the global financial sector and participates, on a regular basis, in events hosted by other regional associations, as well as in major international conferences and forums.

In March 2019, in Yogyakarta, Indonesia, the 21st ACG seminar took place, which, as part of cooperation between the AECSD and the ACG, was attended by representatives

•

10

11

of NSD permanently acting as the AECSD Secretariat. The AECSD Secretariat presented the key areas of focus both of the Association and its members, as well as the progress in research and implementation of contemporary digital technologies (blockchain, DLT, AI, robotics). The presentation was highly praised by the seminar sponsors and ACG Secretariat, and the seminar participants found it very useful to get insight into CSDs' activities across the AECSD region.

In November 2019, the ACG hosted an international conference in Bangkok, Thailand, at which NSD made a presentation focused on e-voting systems, the WFC's E-learning platform, and NSD and AECSD's other prospective projects and initiatives.

In April 2019, the 10th Moscow Exchange Forum attended by more than 2,000 participants took place. The key topics addressed by the Forum were financial policy in support of economic growth and financial and capital market drivers. The Forum was attended by representatives of banks and brokerage companies, Russian and global investment funds, independent experts and analysts, regulators, and business owners.

In June 2019, NSD's representatives attended The Network Forum in Athens, Greece. The Network Forum is a platform for discussion of challenges facing the financial services industry. The Forum provides a wide range of opportunities both for understanding key trends in financial markets and for networking.

In October 2019, a SIBOS international conference was held in London. During the event, Maria Krasnova, Deputy Chairman of NSD's Executive Board, gave an interview on «The Future of the Securities Market Infrastructure in Russia».

Participation in intergovernmental commissions

The Asia-Pacific Region remains one of the key focuses of NSD's international cooperation.

The 20th meeting of the Sub-commission for Financial Cooperation of the Russian-Chinese Commission for the Preparation of Regular Meetings between Heads of Governments took place in August 2019 in Kaliningrad, Russia. Arman Melkumyan, Head of NSD's Network Management Division, was among those who attended the meeting of the Sub-commission's working group on cooperation in the financial markets, and the Sub-commission's plenary meeting.

The meeting participants discussed potential ways of cooperation in the financial sector between Russia and China, including development of cooperation in the context of various aspects of their CSDs' operations, information sharing regarding the national stock markets and CSDs' services (including custody, settlement, and information services), and cooperation within the regional CSD associations.

NSD'S MEMBERSHIP IN INTERNATIONAL ASSOCIATIONS AND OTHER ORGANIZATIONS

Membership in both domestic and international industry associations is essential as it enables NSD to adopt international best practices and standards and to ensure NSD's successful integration into global markets.

NSD is a member of the following leading international organizations in the post-trade industry:

- Association of Eurasian Central Securities Depositories (AECS);
- World Forum of CSDs (WFC);
- European Central Securities Depository Association (ECSDA);
- Association of National Numbering Agencies (ANNA);
- International Securities Services Association (ISSA);
- National Finance Association (NFA);
- Russian National SWIFT Association (ROSSWIFT);
- DLT Working Group.

NSD's Activities as Numbering Agency and Local Operating Unit (LOU)

NSD acts as National Numbering Agency (NNA) for Russia and Substitute Numbering Agency (SNA) for the CIS countries, and as such assigns ISINs, CFIs and FISNs to financial instruments. In 2019, NSD assigned 1,592 ISINs, CFIs and FISNs to Russian financial instruments and 43 ISINs, CFIs and FISNs to financial instruments issued by CIS issuers.

In May 2019, NSD successfully passed annual re-accreditation as Local Operating Unit (LOU) authorized to assign and verify, on an annual basis, LEIs and to provide other services, including accepting LEIs issued by other LOUs for servicing and providing data to the LEI database maintained by the Global Legal Entity Identifier Foundation (GLEIF). NSD is the first and the only company in Russia and CIS with that status.

As LOU, NSD covers 29 jurisdictions, including, in addition to Russia, CIS, Western and Eastern European, and other countries, market players from which may request that NSD assign and service their LEI codes. At the request of its clients, NSD continues extending the list of covered jurisdictions. In 2019, NSD assigned 83 LEIs and verified 540 LEIs.

In 2019, to meet the needs of clients from CIS countries, NSD arranged for the assignment and further servicing of LEIs through GLEIF-licensed Registration Agents acting in clients' countries. Thanks to such Registration Agents, access to NSD's LEI assignment and verification services for non-Russian market participants will be simpler and quicker.

By acting as Numbering Agency and LOU, NSD contributes to the introduction of the global coding standards in the Russian and CIS markets, which improves their transparency, helps them integrate into the global market infrastructure, and simplifies and optimizes financial market transactions.

and Other Committees

At NSD, corporate governance means that the principles and rules of managing and controlling the company and governing relationships between the company's executive bodies, Supervisory Board, shareholders, and other stakeholders (participants of corporate relationships), are aimed at setting NSD's objectives and determining the means to achieve them.

As the CSD, NSD is committed to satisfying the interests of its clients, regulators, and financial market participants.

CORPORATE GOVERNANCE PRINCIPLES

NSD's Corporate Governance Principles are set out in NSD's Corporate Governance Policy (approved by NSD's Supervisory Board on 1 October 2019 and by the Bank of Russia on 31 October 2019), available on NSD's official web site.

NSD applies the best corporate governance standards and practices, including those set out in NSD's Corporate Governance Policy.

The results of compliance with the corporate governance principles set out in NSD's Corporate Governance Policy are described in the appendix to this Report¹.

In corporate governance processes, NSD also follows the principles recommended by Moscow Exchange and set out in the Moscow Exchange's Corporate Governance Code, including the principle that requires acting in the best interests of users of services provided by Moscow Exchange Group companies, the principle of corporate social responsibility, and other principles.

The Supervisory Board is responsible for strategic management of NSD and exercises effective control over the performance of the Executive Board and the Executive Board Chairman.

- The Supervisory Board is also responsible for defining the company's development strategy, exercising effective control over the company's financial and business activities, and approving the company's budgets.

- The composition of the Supervisory Board ensures the most effective performance of its functions.
- The Supervisory Board members actively participate in Supervisory Board meetings, as well as meetings of the Supervisory Board Committees.
- Supervisory Board meetings are convened on a regular basis, either in the form of in-person meetings or in the form of meetings in absentia, depending on the importance of the agenda matters and in accordance with the meeting schedule.
- The Regulations on the Supervisory Board set out, in detail, the procedure for arranging and holding Supervisory Board meetings.
- The Supervisory Board comprises the Budget Committee, the Audit Committee, the Nomination and Remuneration Committee, the Strategy Committee, and the Technological Policy and Development Committee.
- In accordance with NSD's Articles of Association, the Supervisory Board may establish any other standing or ad-hoc committees, as well as Customer Committees responsible for certain key areas of NSD's business in order to deal with any current issues.
- The Supervisory Board is responsible for ensuring the effective performance of the Executive Board and the Chairman of the Executive Board, as well as for exercising control over their performance.

¹ In accordance with Bank of Russia's Directive No. 5062-U dated 17 January 2019.

The Executive Board and the Chairman of the Executive Board are capable of effectively and reasonably running NSD's day-to-day operations, in good faith and in the best interests of NSD.

- In accordance with NSD's Articles of Association, the Executive Board is authorized to deal with the most complex issues arising in the company's day-to-day operations.
- The composition of the Executive Board ensures that NSD's executive bodies carry out their functions most effectively.

NSD assesses its corporate governance system in accordance with the Bank of Russia's recommendations laid down in its Letter No. 11-T dated 7 February 2007 "On the Corporate Governance Assessment Questionnaire for Credit Organizations".

In accordance with clause 12.3.26.9 of NSD's Articles of Association, the company's corporate governance system is assessed on at least an annual basis. In 2019, NSD's corporate governance system was assessed, and upon completion of the assessment, a corporate governance report was prepared and approved by the Supervisory Board.

SUPERVISORY BOARD'S PERFORMANCE REPORT FOR 2019

In 2019, as in the previous years, a number of foreign experts were among the Supervisory Board members to ensure that its decision-making process takes global trends and expertise into account.

The Supervisory Board performed the overall management of NSD's operations and held 14 meetings during the reporting year, including six in-person meetings.

At its meetings, the Supervisory Board took decisions on key issues relating to NSD's financial and business activities and business development, including the following:

- approval of the NSD Development Strategy 2019–2024;
- monitoring indicators for NSD's priority areas of business, and monitoring indicators for NSD's new products and services in 2019;
- implementation of NSD's Revenues, Costs and Income Budget and NSD's Capital Expenditures Budget for 2019;
- approval of NSD's Revenues, Costs and Income Budget and NSD's Capital Expenditures Budget for 2020;
- preliminary approval of NSD's Annual Report for 2018;

- approval of the fees payable to NSD's independent auditor;
- amendments to NSD's Fee Schedules;
- addressing various matters relating to the implementation of the project «Central Operator of Individual Pension Capital» / «Pension Operator of the Guaranteed Pension Plan»;
- addressing various matters relating to the implementation of NSD's project «Improvement of the Securities Issuance Process»;
- review of NSD's performance reports prepared by the Executive Board;
- addressing various matters relating to remuneration of the members of NSD's executive bodies; and
- addressing various matters relating to the entering into of the amended and restated Shareholders Agreement with Respect to NSD.

Also, the Supervisory Board gave a great deal of attention to addressing and deciding on issues of corporate governance at NSD, in particular:

- assessment of the state of corporate governance at NSD;

8

9

10

11

- assessment of NSD's internal control system;
- election of members of NSD's Executive Board, and authorizing Executive Board members to hold positions in management bodies of other organizations;
- convocation of the annual General Meeting of Shareholders in 2019;
- recommendations to the annual General Meeting of Shareholders in 2019;
- convocation of NSD's extraordinary General Meeting of Shareholders held on 22 January 2020;
- recommendations to the extraordinary General Meeting of Shareholders held on 22 January 2020; and
- election of new members of Supervisory Board Committees and Customer Committees.

In addition, decisions were taken on issues relating to NSD's operational efficiency and amendments to, and approval of, NSD's internal regulations, including the following issues:

- review of reports submitted by NSD's Internal Control and Internal Audit Departments, approval of the Internal Audit Department's work plan, and review of CSD controller's performance reports;
- assessment of risks and of the effectiveness of risk management at NSD;
- review of stress testing and ICAAP reports;
- review of the report on the implementation of NSD's Risk Management Development Strategy for 2018;
- review of the Executive Board Chairman's report regarding management of the Trade Repository's regulatory risk for 2018;
- review of NSD's Customer Satisfaction Index Report;
- approval of the estimated level of NSD's economic capital for 2019;
- approval of NSD's Key Performance Indicators for 2019;
- approval of NSD's corporate Key Performance Indicators for 2020;

- approval of NSD's internal regulations, including:
 - amended and restated Technological Policy in the Field of Basic Information Technology (IT);
 - amended and restated Risk Management Rules for Risks Associated with the Activities of the Central Securities Depository;
 - amended and restated Clearing Rules;
 - amended and restated Internal Control Rules on Anti-Money Laundering, Combating the Financing of Terrorism and Financing of the Proliferation of Weapons of Mass Destruction;
 - amended and restated Risk and Capital Management Strategy;
 - Terms of Transactions in Financial Instruments of Persons Considered to be NSD's Insiders and Persons Related to Them;
 - amended and restated Internal Audit Rules;
 - amended and restated Terms and Conditions of Depository Operations;
 - amendments to the Regulations on the Strategy Committee of NSD's Supervisory Board;
 - amended and restated Risk Management Policy;
 - amended and restated Development Strategy Drafting, Approval and Monitoring Guidelines;
 - amended and restated Regulations on the Internal Audit Department;
 - amended and restated internal regulations that govern employee compensation;
 - amended and restated Financial Recovery (Self-Recovery) Plan;
 - amended and restated Pricing Policy;
 - amended and restated Regulations on Investment of NSD's Temporarily Free Cash Funds;
 - amended and restated Risk and Capital Management Strategy; and
 - amended and restated Corporate Governance Policy.

COMMITTEES AND COMMISSIONS

Additional information regarding NSD's Committees and Commissions is available on page 67 of this Report.

Internal Audit Commission

Committee	Mission
Internal Audit Commission	The Internal Audit Commission is the controlling body responsible for exercising internal control over NSD's financial and business activities. Members of the Internal Audit Commission are elected at annual General Meetings of Shareholders. The proceedings of NSD's Internal Audit Commission are governed by the Regulations on the Internal Audit Commission approved by the General Meeting.

Supervisory Board Committees

Committee	Mission
Audit Committee	Ensuring efficient work of NSD's Supervisory Board in organizing the internal control and external audit system, as well as risk management at NSD.
Budget Committee	Improving the efficiency of NSD's Supervisory Board by ensuring proper control over the way funds are received and spent at NSD. The Committee thoroughly prepares materials to be considered at meetings of NSD's Supervisory Board relating to financial planning and financial resources management at NSD.
Nomination and Remuneration Committee	In-depth analysis of matters relating to the recruitment, assessment and remuneration of NSD's senior managers, including Supervisory Board members, the Chairperson of the Executive Board, Executive Board members, and members of the Internal Audit Commission, and preparation of materials to be addressed at Supervisory Board meetings.
Technological Policy and Development Committee	Analysis of development of NSD's IT systems, and making recommendations to the Supervisory Board and the Executive Board on matters relating to the technological policy pertaining to the creation, maintenance, operation, and development of IT systems.
Strategy Committee	Making recommendations to NSD's Supervisory Board as to the worst-case, baseline, and best-case scenarios and the strategy of NSD's development for a new period. Monitoring the progress in the implementation of NSD's current strategy, assessing the need to adjust NSD's current strategy, and making relevant proposals to the Supervisory Board.

Customer Committees of the Supervisory Board

Committee	Mission
Customer Committee for Quality Control and Risk Management	Making recommendations to the Supervisory Board and/or the executive bodies on the client and marketing policy, improving the quality of client services, and approval of internal regulations relating to clearing activities.
Customer Committee for Settlement and Depository Services and Tariffs	Analyzing customers' needs, making recommendations to the Supervisory Board and/or the executive bodies for the development of depository and settlement products and NSD's pricing policy.
Customer Committee for Registrar and Depository Relations	Making recommendations to the Supervisory Board and/or the executive bodies to improve existing methods of interaction between NSD and registrars, and proposals to change existing technologies being used for the interaction between NSD and registrars.
National Settlement Depository Customer Committee (Central Securities Depository Customer Committee)	Approval of internal regulations of NSD as the central securities depository and NSD's fees for depository services.

Committees of the Executive Board

Committee	Mission
Risk Management Committee	Assistance to the Executive Board in the field of corporate governance and risk management improvement.
Tender Committee	Securing the best terms for procuring goods, services, and works needed to support NSD's operations, and minimizing the risk of NSD's contractors failing to deliver.
Product and Project Committee	NSD's project management.
Repository Services User Committee	Considering proposals and making recommendations to the Executive Board for the development and improvement of NSD's trade repository activities.
Risk Management Committee for Payment System	Considering proposals and making recommendations to NSD's executive bodies in the field of risk management in the NSD Payment System.
Committee on the Development of Corporate Actions and Corporate Information Center	Considering proposals and making recommendations to NSD's Executive Board for the development of the Corporate Actions and Corporate Information Center.
Securities Services Development Committee	Considering proposals and formulating recommendations on various issues associated with NSD's securities services.

SHAREHOLDERS

On 21 November 2019, NSD's shareholders signed the amended and restated Shareholders Agreement with respect to NSD, and NSD became a party to the Shareholders Agreement. Moscow Exchange holds a 99.997% interest in NSD's share capital, while each of the other 34 shareholders (banks, brokerage firms, registrars, Republican Unitary Enterprise "Republican Central Securities Depository" (Republic of Belarus), and ICSDs (Euroclear Bank SA/NV и Clearstream Banking S.A.)) holds one share. The full list of NSD's shareholders is shown in the table below. Thanks to such shareholder structure, the Shareholders Agreement strikes a balance between shareholders' interests and interests of NSD's service users.

The Shareholders Agreement needed to be amended and restated to reflect certain changes in Russian laws and regulations applicable to the CSD. Besides, since the execution of the previous Shareholders Agreement in 2011, NSD, in addition to acting as CSD, has taken a number of other infrastructure roles, including those of a systemically important trade repository and a nationally important payment system, all of which required to update the Shareholders Agreement. The Shareholders Agreement demonstrates that the Moscow Exchange Group is willing to establish a corporate governance system that is transparent to securities market participants.

Because certain international central securities depositories became shareholders in 2014, NSD is now able to position itself as a Eurasian (regional) international central securities depository. This allows NSD to offer foreign investors CSD services for execution of transactions in securities of Russian or other CIS issuers, and also to offer investors from CIS countries services for execution of transactions in foreign securities through accounts held by international or CIS CSDs with NSD.

The presence of foreign infrastructure institutions among NSD's shareholders demonstrates that Russia's central securities depository is recognized in the global arena and that its corporate governance system is trusted.

List of NSD's Shareholders¹

1. Public Joint-Stock Company «Moscow Exchange MICEX-RTS»
2. Gazprombank (Joint Stock Company)

General Meeting of Shareholders

The proceedings of General Meetings of Shareholders are governed by the Rules of Procedure of NSD's General Meeting of Shareholders approved by the General Meeting.

On 30 May 2019, the annual General Meeting of Shareholders approved NSD's Annual Report for 2018 and appointed NSD's external auditor. In addition, the General Meeting took decisions on profit distribution and dividend payment for 2018, elected the new members of the Supervisory Board and Internal Audit Commission, and took decisions on remuneration of the Supervisory Board members.

No extraordinary General Meeting of Shareholders was held in 2019.

REPORT ON THE PAYMENT OF DECLARED (ACCRUED) DIVIDENDS ON THE SHARES IN NSD

In accordance with Federal Law No. 208-FZ dated 26 December 1995 “On Joint-Stock Companies”, a company may declare dividends on its issued and outstanding shares and is required to pay the dividends so declared.

The annual General Meeting of Shareholders held on 30 May 2019 passed the following resolutions in relation to dividend payment to NSD’s shareholders:

1. Distribute NSD’s net profit for 2018 as follows:

- Use 100% of NSD’s net profit for 2018 amounting to RUB 2,757,282,000 to pay dividends to the shareholders.

2. Determine the dividend amount of RUB 2,335.34 per NSD’s registered ordinary share before dividend income tax under article 284 (sub-paragraph 1, paragraph 3) of the Russian Tax Code.

3. Determine that the record date for dividend payment purposes shall be 10 June 2019.

4. Pay the dividends within the time limits required by the Russian laws.

The dividends were paid in full and within the prescribed timeframe.

REMUNERATION OF NSD’S SUPERVISORY BOARD MEMBERS

In accordance with the Federal Law «On Joint-Stock Companies», the General Meeting of Shareholders may resolve to pay remuneration to Supervisory Board members during their term in office. The amount of such remuneration is to be approved by the General Meeting of Shareholders in accordance with NSD’s Supervisory Board Members’ Remuneration and Expenses Reimbursement Regulations.

In determining the amount of remuneration payable to Supervisory Board members, the following factors are taken into account:

- independent director status;

- the exercise of functions of Chairperson / Deputy Chairperson of the Supervisory Board;

- Supervisory Board Committee membership;

- the exercise of functions of Supervisory Board Committee Chairperson; and

- attendance at in-person Supervisory Board meetings and meetings of Supervisory Board Committees.

The total remuneration paid in 2019 to the Supervisory Board members amounted to RUB 54,395,206, including RUB 31,395,206 paid to the independent directors.

REMUNERATION OF NSD'S EXECUTIVE BOARD MEMBERS

In accordance with NSD's Articles of Association, the amount of remuneration is approved by the Supervisory Board.

Remuneration payable to the Executive Board members comprises two components:

- Monthly remuneration (salary) payable for the performance of duties under the employment contract; and
- Performance-based remuneration. Key performance indicators are set by the Supervisory Board in accordance with the recommendations made by the Nomination and Remuneration Committee of the Supervisory Board. Individual key performance indicators are set for each Executive Board member, and the amount of remuneration payable to that member depends on whether the KPIs are achieved.

NSD'S SUPERVISORY BOARD COMMITTEES AND OTHER COMMITTEES

Audit Committee

Mission:

The Audit Committee's role is to ensure efficient work of NSD's Supervisory Board in organizing the internal control and external audit system, as well as risk management at NSD.

In 2019, as in the previous year, NSD continued to face such challenges as global geopolitical and financial uncertainty; evolving financial policy and regulation; and heightening concerns around risk management and cyber security. Throughout the reporting year, the Audit Committee and NSD's business units were actively involved in addressing these challenges. Despite the continuing volatility caused by the underlying factors, NSD continued to display stability in updating its processes and systems to proactively address them.

Members (as of 31 December 2019)

1	Paul James Ostling	Chairperson of the Committee Independent member of NSD's Supervisory Board
2	Oksana Loginova	Member of the Board of Directors, SBER LEGAL LLC
3	Anton Ostrovskiy	Independent member of NSD's Supervisory Board
4	Andrey Popov	Independent member of NSD's Supervisory Board
5	Nadezhda Ushakova	Senior Vice President, Head of Depository, VTB Bank

Highlights of the year:

In 2019, the Audit Committee held 13 meetings and dealt with 66 issues.

•
•
•
•

At its meetings, the Audit Committee mainly reviewed regular reports of the Risk Management, Internal Audit, and Internal Control Departments and of the Information Security Division; internal risk management, control, and audit processes; and external audit findings (encompassing audit of NSD's financial statements and operational audit).

In 2019, the Audit Committee also addressed the risks relating to NSD's new development strategy 2024 and steps to be taken to reduce those risks. In addition, NSD successfully passed operational audit under ISAE 3402 Type II (SOC 1). To revise NSD's internal rules and regulations, new versions of the Regulations on the Internal Audit Department (to bring them in line with the international standards for the professional practice of internal auditing) and Financial Recovery (Self-Recovery) Plan were approved.

In 2020, the Audit Committee will be supporting NSD's business development initiatives and infrastructure projects, such as RoFT, which commonly require Committee's involvement to control and prevent risks. Moreover, the Committee will focus strongly on cyber security and business continuity, as vulnerability of the relevant IT systems gives rise to potential risks for NSD's business.

Budget Committee

Mission:

The Budget Committee's role is to improve the efficiency of NSD's Supervisory Board by ensuring proper control over the way funds are received and spent at NSD. The Committee thoroughly prepares materials to be considered at NSD's Supervisory Board meetings on matters relating to financial planning and financial resources management at NSD.

Members (as of 31 December 2019):

1	Maxim Lapin	Chairperson of the Committee Chief Financial Officer, Moscow Exchange
2	Mikhail Bratanov	Regional Head of Societe Generale Securities Services (Russia and CIS), Head of Securities Services, PJSC ROSBANK
3	Andrey Popov	Independent member of NSD's Supervisory Board
4	Nadezhda Ushakova	Senior Vice President, Head of Depository, VTB Bank

Highlights of the year:

In 2019, the Committee held 12 meetings.

The priorities for the Committee were matters relating to the budgeting of NSD's operations and the company's pricing policy.

The Committee has contributed to fine-tuning the cost control process, analyzing the company's revenue model and prospective projects, analyzing company's economic capital.

In 2020, the Committee will focus on the quarterly monitoring of CTOI and fees and commissions, analysis of revenue streams from business lines, and analysis of the 'Registrar of Financial Transactions' and 'Pension Operator of the Guaranteed Pension Plan' projects.

Nomination and Remuneration Committee

Mission:

In-depth analysis of matters relating to the recruitment, assessment and remuneration of NSD's senior managers, including Supervisory Board members, the Chairman of the Executive Board, Executive Board members, and other key employees and members of the Internal Audit Commission, and preparation of materials to be considered at Supervisory Board meetings.

Members (as of 31 December 2019):

1	Ilya Yuzhanov	Chairperson of the Committee Independent director
2	Yury Denisov	Chairman of the Executive Board and CEO, Moscow Exchange
3	Oleg Vyugin	Chairman of the Supervisory Board, Moscow Exchange
4	Bella Zlatkis	Deputy Chairperson of the Executive Board, Sberbank of Russia

Highlights of the year:

In 2019, the Committee held 8 meetings at which the Committee members made recommendations concerning the composition of NSD's Executive Board and remuneration payable to the Executive Board members, as well as recommendations as to:

- new nominees to the Supervisory Board to be elected at the annual General Meeting in 2019;
- NSD's Key Performance Indicators (KPI) for 2019 and assessment of the achievement of NSD's KPIs for 2018;

1

- updating NSD's Supervisory Board Members' Remuneration and Expenses Reimbursement Regulations;
- remuneration of the Chairman of the Executive Board and Executive Board members for 2018, and remuneration of the heads of the business units in charge of internal control and risk management;
- updating NSD's employee compensation plans in accordance with Bank of Russia's Instruction No.154-I dated 17 June 2014; and
- NSD's corporate Key Performance Indicators for 2020.

The Committee Chairman coordinated efforts to assess the state of corporate governance at NSD based on the results of 2019.

Technological Policy and Development Committee

Mission:

Analysis of development of NSD's IT systems to ensure they meet the needs of financial markets participants, and making recommendations to the Supervisory Board and the Executive Board on matters relating to the technological policy concerning the creation, maintenance, operation, and development of such IT systems.

Members (as of 31 December 2019):

1	Alexander Izosimov	Chairperson of the Committee Supervisory Board member, Moscow Exchange
2	Svetlana Balanova	Independent member of NSD's Supervisory Board
3	Dmitry Ereemeev	President, FIX Group
4	Igor Kalganov	Independent member of NSD's Supervisory Board
5	Vladimir Kurlyandchik	Director for Development, ARQA Technologies
6	Kirill Menshov	Senior Vice President for IT, PJSC "Rostelecom"

7	Andrey Popov	Independent member of NSD's Supervisory Board
8	Yury Yartsev	Deputy Head of the Project Office Department, Moscow Office of BCS Prime Brokerage Limited

Highlights of the year:

In 2019, the Committee held one meeting to discuss various issues relating to the preparation of NSD's IT strategy 2024 and selection of a prospective IT platform for the NSD Payment System.

In 2020, the Committee will focus on the implementation and, if necessary, revision of NSD's IT strategy and take part in expert discussions of other issues concerning NSD's IT development.

Strategy Committee

Mission:

Making recommendations to NSD's Supervisory Board as to the worst-case, baseline, and best-case scenarios and the strategy of NSD's development for a new period.

Monitoring the progress in the implementation of NSD's current strategy, assessing the need to adjust NSD's current strategy, and making relevant proposals to the Supervisory Board.

Members (as of 31 December 2019):

1	Бодар Пол Анне Ф.	Chairperson of the Committee
2	Братанов Михаил Валерьевич	Regional Head of Societe Generale Securities Services (Russia and CIS), Head of Securities Services, PJSC ROSBANK
3	Вьюгин Олег Вячеславович	Chairman of the Supervisory Board, Moscow Exchange
4	Денисов Юрий Олегович	Chairman of the Executive Board and CEO, Moscow Exchange

5 Островский Антон Олегович Independent member of NSD's Supervisory Board

6 Попов Андрей Александрович Independent member of NSD's Supervisory Board

Highlights of the year:

In 2019, the Committee held six meetings.

At its meetings, the Committee worked to devise NSD's new development strategy 2024 eventually approved by NSD's Supervisory Board on 23 April 2019. As part of the Strategy implementation, a new version of NSD Development Strategy Drafting, Approval and Monitoring Guidelines was drafted. The current statuses of strategic initiatives were monitored on a regular basis. To align the NSD strategy with the strategy of the Moscow Exchange Group, the Committee cooperated with the Strategy Planning Commission of Moscow Exchange's Supervisory Board. The Committee also approved the following prospective initiatives: selection of a prospective IT platform for the NSD Payment System; monetization of data (Big Data) collected by NSD; NSD's IT Strategy for the Period until 2024; and amended and restated Shareholders Agreement with respect to NSD.

Committee's key objectives in 2020 will include:

- Review and discussion of a Report on the Progress in the Implementation of the NSD Development Strategy in 2019. Formulating recommendations to NSD's Supervisory Board;
- Monitoring of the current statuses of the strategic initiatives covered by the Strategy;
- Review and discussion of prospective initiatives that can potentially be put on the list of strategic initiatives.

Customer Committees of the Supervisory Board

National Settlement Depository Customer Committee (Central Securities Depository Customer Committee)

Mission:

The Committee is responsible to review and approve internal regulations (amendments thereto) of NSD as central securities depository, including regulations that require approval by the Bank of Russia.

Chairperson:

Svetlana Kamasheva, Vice President, Head of Depository's New Product Development Department, VTB Bank (PJSC)¹.

Highlights of the year:

In 2019, the Committee held three meetings, at which the Committee approved the amended and restated Risk Management Rules for Risks Associated with the Activities of the Central Securities Depository and the amended and restated Terms and Conditions of Depository Operations, as well as the amendments to the Fee Schedule for NSD's Depository Services, as relating the fee for tax support services in connection with payment of income from securities and removal of the fees for NSD's services in connection with instruction cancellation upon acceptance of securities for safekeeping or withdrawal of securities from safekeeping (securities held with international central securities depositories, ADRs, GDRs).

Customer Committee for Quality Control and Risk Management

Mission:

The key role of the Customer Committee for Quality Control and Risk Management is to make recommendations to NSD's Supervisory Board and executive bodies on the following matters:

- NSD's customer policy, in particular a client onboarding process and servicing principles applicable to various client categories;
- NSD's marketing policy in promoting its services;
- improving customer services and ensuring control over their quality, including in the field of software, hardware and technological support of NSD's activities;
- improving products and services offered by NSD;
- reducing NSD's operational risks in delivering services;
- informing NSD's customers about new products and services, and supporting the promotion of such services in the financial services market; and
- approving internal regulations relating to NSD's clearing operations.

¹ Before 1 August 2019, the Committee was headed by Alexey Fedotov, Deputy Head of Depository, Russian Agricultural Bank.

Chairperson:

Vladimir Itunin, Head of Operations, Alfa-Bank¹.

Highlights of the year:

In 2019, the Committee held three meetings at which the Committee approved the amended and restated Risk Management Rules for Risks Associated with the Activities of the Central Securities Depository and reviewed and discussed reports regarding the level of customer satisfaction of NSD's services, software design and improvement process, operational audit findings, and insurance coverage maintained by NSD. The Committee also addressed various information security issues and the key achievements in the development of the company's business continuity management system.

Customer Committee for Settlement and Depository Services and Tariffs

Mission:

The key functions of the Customer Committee for Settlement and Depository Services and Tariffs are as follows:

- liaising with financial market participants for the purpose of studying customers' needs and analysing new market trends; and
- making recommendations to NSD's Supervisory Board and executive bodies on the following matters:
 - development of depository and settlement services and products;
 - development and standardization of a pricing model;
 - marketing policy aimed at offering competitive services; and
 - other matters directly relating to NSD's Development Strategy.

Chairperson:

Ksenia Vlasova, Head of Operations, Business Support Department, Aton LLC².

Highlights of the year:

In 2019, the Committee held four meetings at which the Committee addressed proposed improvements to the functionality of Web-client for Depository and Clearing Services (DCS Web-client) and services relating to foreign corporate actions; potential integration between the Moscow Exchange's OTC system for the debt market and NSD's DCS Web-client; and the DVP-2 service with the use of correspondent accounts with the Bank of Russia. The Committee discussed specific aspects of application of Article 8.5 of Federal Law No. 39-FZ dated 22 April 1996 "On the Securities Market" and addressed the issue of discrepancies in securities quantities arising from Article 8.5 of the Federal Law «On the Securities Market». In addition, the Committee focused on the improvement of paperwork in connection with mutual payments for services and harmonization of NSD's fees (introduction of a monthly fixed fee for clearing services).

Customer Committee for Registrar and Depository Relations

Mission:

The key functions of the Customer Committee for Registrar and Depository Relations are as follows:

- making recommendations to improve NSD's existing relations with registrars that maintain registers of registered securities holders, and with specialized depositories that maintain registers of UIT unit holders;
- making proposals to change NSD's communication technologies being used to interact with registrars, including electronic data interchange technologies;
- making proposals to design new technologies to improve the quality of NSD's relations with registrars and specialized depositories; and
- addressing any other matters relating to the Committee's tasks and objectives.

¹ Before 18 December 2019, the Committee was headed by Natalia Sidorova, Head of Global Securities Services, Transaction Banking Services Department, JSC UniCredit Bank.

² Before 18 December 2019, the Committee was headed by Evgenia Klimova, Head of Custody Services Department, JSC Raiffeisenbank, Russia.

Chairperson:

Vadim Protasenko, First Deputy General Director, JSC Independent Registrar Company R.O.S.T.¹

Highlights of the year:

In 2019, the Committee held one meeting to discuss changes in NSD's securities services and corporate action processing methods resulting from the entry into force of Federal Law No. 514-FZ dated 27 December 2018, and the implementation of a new format of a list of securities holders of record in interactions with depositories and registrars.

Committees of the Executive Board

Risk Management Committee

Mission:

The Risk Management Committee's role is to provide assistance to the Executive Board in the field of corporate risk management. The Committee focuses on improving and strengthening risk management at NSD and ensuring immediate response to critical risks.

Chairperson:

Maria Krasnova, Deputy Chairman of the Executive Board, Executive Board member, NSD.

Highlights of the year:

In 2019, the Committee held 10 meetings, at which the Committee members addressed a number of matters relating to operational reliability of NSD's services, operation and development of the risk management system, business continuity, and information security. In particular, the Committee focused on the following matters:

- steps aimed at enhancing the level of NSD's cyber security;
- information security testing;
- progress in the implementation of the business continuity and disaster recovery plans and plans for building resilient infrastructure;
- acceptance of risks in NSD's ongoing operations; and

- findings of investigations into the causes and circumstances of material incidents in NSD's operations, and steps taken to prevent their re-occurrence.

The outcomes of Committee meetings are regularly reported to the Executive Board.

Risk Management Committee for Payment System

Mission:

The Committee makes recommendations in the field of risk management in the NSD Payment System, including recommendations as to the eligibility criteria for participation in the NSD Payment System, requirements to payment infrastructure service providers, and issues of information security in the NSD Payment System.

Chairperson:

Viktor Utkin, a representative of Alfa-Bank.

Highlights of the year:

In 2019, the Committee held three meetings at which the Committee assessed risk management in the NSD Payment System and discussed potential broadening of standard reporting forms being used as raw data for stress testing of financial risks, as well as the usefulness of stress testing of liquidity risk in the NSD Payment System in view of the sources of liquidity risk in the Payment System.

Tender Committee

Mission:

Securing the best terms for procuring goods, services, and works needed to support NSD's operations, and minimizing the risk of NSD's contractors failing to deliver.

Chairperson:

Georgy Uryutov, Director of General Economic Department, NSD.

¹ Before 18 December 2019, the Committee was headed by Maksim Murashov, General Director, JSC "DRAGA"

In 2019, the Committee held 38 meetings. Most of the matters addressed by the Committee were relating to the outsourcing of the design and maintenance of various IT systems and software solutions, and repair and maintenance of the office building occupied by NSD at 12 Spartakovskaya Street in Moscow. In particular, counterparties were selected to conduct market researches, to provide advisory services, insurance coverage, and staff training, and to acquire licences, computer hardware, and other equipment.

Product and Project Committee

Mission:

The Committee was set up to manage project activities at NSD, including the development of new products and services. The Committee's key role is to assist the Executive Board in deciding on the project and product management of the company and to ensure that the project implementation complies with management policies and regulations.

Chairperson:

Irina Veremeenko, Chief Accountant, Director of Accounting and Reporting Department, Executive Board member.

Highlights of the year:

In 2019, the Committee held 18 meetings, at which the Committee members, among other things, discussed the following projects: transit service for financial notifications; integration with the Prospective Payment System; improvement of electronic communications with clients; Registrar of Financial Transactions; and W8BEN service.

Repository Services User Committee

Mission:

The Committee's primary role is to consider proposals and make recommendations to NSD's Executive Board for the development and improvement of NSD's repository activities.

Chairperson:

Marina Presnyakova, Executive Director, COO, Commercial Bank "J.P. Morgan Bank International" (Limited Liability Company).

Highlights of the year:

In 2019, the Committee did not meet.

Committee on the Development of Corporate Actions and Corporate Information Center

Mission:

The Committee's primary role is to consider proposals and make recommendations to NSD's Executive Board for the development of the Corporate Actions and Corporate Information Center.

Chairperson:

Natalia Shtalenkova, Head of Product Development Division, Depository Services Department, Commercial Bank «J.P. Morgan Bank International» (Limited Liability Company).

Highlights of the year:

In 2019, the Committee did not meet.

Committees of the Chairperson of the Executive Board

are analysis of whether control measures used or planned in connection with software updates are adequate; and development of measures to mitigate the risk of the negative impact that the software updates have on the quality of services.

Chairperson:

Andrey Shlyappo, Deputy Chairman of the Executive Board.

Highlights of the year:

In 2019, the Committee held 21 meetings to discuss matters relating to the installation of software releases, as well as to the assessment of non-project-related requests.

Architectural Committee

Mission:

The Architectural Committee's key responsibilities are as follows:

- making proposals to ensure failure-free and reliable operation of electronic systems and IT infrastructure critical for NSD's business; and
- making proposals to ensure competitive advantages and leadership for NSD by developing and monitoring the implementation of the IT strategy, introducing and using advanced and promising settlement, depository, and clearing technologies to address tasks set before NSD.

Chairperson:

Alexander Chekanov, Chief Architect.

Highlights of the year:

In 2019, the Committee held 11 meetings. Among the matters addressed by the Committee were the following: robotics-related risks; IPC project architecture; AI technologies; selection of a secure data interchange system for data interchange with the Bank of Russia; DLT-based commodities clearing OTC system; and selection of a prospective IT platform for the NSD Payment System.

Innovations Committee

Mission:

The Innovations Committee's key responsibilities are as follows:

- development of innovative ideas to create new products and services and to improve the competitiveness of NSD's existing products and services; and
- development of NSD's innovative capacity.

Chairperson:

Artem Duvanov, Director for Innovations, NSD.

Highlights of the year:

In 2019, the Committee did not meet.

RISK MANAGEMENT

Risk profile

Key risk factors associated
with NSD's operations

Key milestones
in risk management in 2019

Plans for 2020

NSD's risk management system aims to promote sustainable development of the Russian financial market in accordance with international standards and is focused on effective risk management for both the company and participants of the financial market infrastructure.

The main purpose of risk management at NSD is to ensure operational reliability and steady development of the company's key areas of business and to guarantee that the company meets its obligations to its shareholders, clients, regulator, and other stakeholders. Risk management processes are based on the Integrated Enterprise Risk Management Framework (COSO ERM) and constitute an integral part of NSD's operations.

Effective risk management contributes both to optimal decision-making in the context of uncertainty and related risks, and the use of available opportunities.

Detailed information on the risk management system, its organizational structure, and key principles of risk management is available on NSD's web site in the Risk Management section.

RISK PROFILE

The risk management system is designed to manage all types of financial and nonfinancial risks in NSD's business, namely: credit risk, market risk, liquidity risk, operational risk, legal risk, regulatory risk, strategic risk, reputational risk, business risk, and systemic risk.

The risk management process involves measures aimed at identifying, assessing, responding to, monitoring, and controlling NSD's risks.

KEY RISK FACTORS ASSOCIATED WITH NSD'S OPERATIONS

Risk	Risk Factors / Sources	
Credit Risk	<ul style="list-style-type: none"> Counterparties' default on their obligations in transactions that bear credit risk 	
Market Risk	<ul style="list-style-type: none"> Changes in exchange rates Changes in the market value of securities in NSD's portfolio Changes in interest rates and yields 	
Liquidity Risk	<ul style="list-style-type: none"> Potential maturity mismatch between financial assets and financial liabilities Need for NSD to meet its financial liabilities immediately and at the same time 	1
Operational Risk	<ul style="list-style-type: none"> Ineffectiveness of internal business processes Human errors Malfunctioning of IT systems Cybercrime Fraud External events 	2 3 4 5 6
Legal Risk	<ul style="list-style-type: none"> Failure to perform contracts and agreements Flaws in the legal system Legal errors arising in the course of operations 	7 8 9
Regulatory Risk	<ul style="list-style-type: none"> Failure to comply with the requirements of laws, internal regulations, and industry standards applicable to NSD's operations 	10 11

Risk	Risk Factors / Sources
Reputational Risk	<ul style="list-style-type: none"> Negative perception of the company's financial solvency, quality of services, and operational reliability by clients and other stakeholders
Strategic Risk	<ul style="list-style-type: none"> Mistakes in decision-making regarding the company's development strategy Shortcomings in strategy implementation
Business Risk	<ul style="list-style-type: none"> Unforeseen costs arising in the course of providing services Flaws in management decisions taken in connection with the design and promotion of services External environment factors affecting company's income and expenses
Systemic Risk	<ul style="list-style-type: none"> Failure by one or more than one settlement participant to meet his liabilities, which could adversely affect the capability of most or all settlement system participants to meet their respective liabilities

The key tools designed to manage risks include:

1) Collection and analysis of information on risk events.

2) Identification, assessment, and reduction of risks in NSD's current business processes, projects, and products.

3) Setting limits and other restrictions with respect to the risks taken.

4) Monitoring of compliance with the applicable risk appetite parameters.

5) Managing the assets and liabilities portfolio for the purpose of its optimization in terms of maturity and structure.

6) Setting aside reserves to cover potential losses.

7) Monitoring of NSD's risk level and the impact of changes in the external environment on the company's risk profile.

In addition, to ensure the company's financial strength, various processes have been implemented to plan and maintain NSD's capital at the level adequate to cover risks pertaining to the company's operations, including in stress conditions. Compliance with the capital requirements is monitored on a daily basis.

KEY MILESTONES IN RISK MANAGEMENT IN 2019

In 2019, NSD continued its efforts to improve its risk management tools and practices. The Risk Management System Development Strategy for the Period until 2020 defines the following three key areas of focus.

The key activities completed in 2019 include the following:

- Steps taken to ensure operational reliability and failure-free operation of NSD's processes.
- Implementation of the program designed to build a risk culture and to raise staff and senior management's awareness of risk management tools and practices.
- Automation of a number of risk and control management processes.
- Updating of approaches and methods for ensuring the company's financial strength.

PLANS FOR 2020

Risk management, along with other support functions, is intended to create an environment that would enable NSD to pursue its strategic goals and objectives. Accordingly, the following priority areas of focus have been identified to improve risk management practices:

- Ensuring a high level of risk culture and risk management competencies possessed by company's staff and senior management.
- Risk assessment of NSD's strategic projects and initiatives.
- Further improvement of the procedures designed for evaluation of reliability and financial strength of legal entities involved in recordkeeping or safekeeping of assets owned by NSD or its clients.

05

BUSINESS CONTINUITY

Full-scope business
continuity exercises

• • •

+

+

+

+

+

+

To ensure its business continuity, NSD has in place and continuously improves the business continuity management system based on the recognized standards and global best practices.

The business continuity management system covers the entirety of NSD's key areas of business and is focused on:

- Ensuring safety of company employees and NSD's visitors;
- Ensuring NSD's ability to meet its obligations to clients and partners in the event of disruption of the company's normal operations;
- Prevention of potential disruption of the company's normal operations;
- Mitigation of financial and non-financial consequences of emergencies;

- Restoration of the normal operations following an emergency; and
- Maintaining the level of management at NSD, which allows for making reasonable and optimal management decisions and implementing them in a timely fashion and in full.

The work aimed at ensuring the reliability of critical processes is systematic and consistent. Business continuity management is supported by NSD's senior executives, with necessary resources being allocated to ensure the proper level of continuity of business processes.

NSD has in place adequate backup infrastructure (the backup site and backup data center) that meets all of the requirements applicable to such facilities.

In addition, NSD has in place Business Continuity and Disaster Recovery Plans that are tested, reviewed, and updated on a continuous basis.

FULL-SCOPE BUSINESS CONTINUITY EXERCISES

In 2019, multiple tests were conducted, which covered various areas of NSD's business, including tests involving clients, the regulator, municipal service agencies, and service providers.

In addition to testing disaster recovery of IT systems and utilities, NSD, as part of its business continuity efforts, conducts cross-functional emergency situation exercises, which involve relocation of the company's critical business functions to the backup site in accordance with the Business Continuity and Disaster Recovery Plans.

Specific attention is paid to managing communications with stakeholders and to disclosure of information regarding emergencies.

In line with the global best practices, representatives of stakeholders are invited to take part in exercises as observers.

The positive outcomes of the exercises and tests prove the high level of NSD's preparedness to ensure the continuity of its services for clients in an emergency.

It should be specifically said that NSD, in its business continuity efforts, is client-oriented. In 2019, the Business Continuity and Disaster Recovery Plan for Corporate Actions Conducted by NSD's Clients was tested together with clients. Special work areas at NSD's offices are always available to clients to enable them to conduct a corporate action when the client's offices could not be used for that purpose.

IT INFRASTRUCTURE

Effective management of the IT infrastructure and ensuring continuous functionality of its components remain one of the key objectives for NSD.

Pavel Andrianov,
IT Director

CYBER SECURITY AND RESILIENCE

In 2019, NSD took a number of significant steps to improve cyber security of its IT infrastructure. In particular, the company completed the project to enhance resilience of its critical IT systems and deployed Veritas, a solution that helps automate failover and failback between the main and backup data centers. In addition, regular testing takes place in accordance with the Disaster Recovery Plans.

The following IT projects were completed in 2019:

- Web-client for Depository and Clearing Services was deployed to the production environment;
- Processing of Forms W-8 for taxation of U.S. securities was automated;
- Robotization: more than 40 robots were deployed to improve the effectiveness of NSD's operational business units;

- NSD started providing SWIFT GPI services in its Payment System;
- A number of pilot projects using artificial intelligence was implemented.

In addition, NSD implemented the following initiatives designed to improve customer satisfaction:

- Launch of an external technical support portal for clients;
- Launch of a chatbot for IT services on NSD's web site;
- Deployment of Web-client Administrator to the production environment.

PROMOTING FINANCIAL LITERACY AMONG THE GENERAL PUBLIC

In 2019, NSD contributed RUB 500,000 to provide a salary to a financial literacy teacher in the “Bolshaya Peremena” (Big Change) charity foundation that helps orphans adapt to the modern life while they stay in a children’s home and after they leave it. Orphaned

children are the first to fall victim to fraudsters who hunt them down to deprive them of the property and money received from the government. NSD helps protect children and provide them with the basic knowledge of how to deal with money.

ASSISTANCE TO CHILDREN

In 2019, NSD collaborated with a number of charitable foundations and volunteer movements that support orphaned children and children with severe diseases. These organizations provide psychological and medical assistance to those put in their charge, taking care of their education and creative development when their relatives are not able to do that for a variety of reasons.

NSD allocated RUB 470,000 to the “Sheredar” charitable foundation to sponsor the rehabilitation program for 70 children aged 13-17 who were diagnosed with cancer. This partially covered the transfer, room and board of the program participants and volunteers, and purchase of special equipment. NSD also supported a sports, health improvement, and development program named “Kanikuly so Smyslom” (Meaningful Holidays). It is held for orphaned children by the “Deti Nashi” (Our Children) charitable fund. 18 children received treatment during the program’s summer session and 20 children – during its winter session. NSD’s aid in the amount of RUB 500,000 allowed to provide room and board to the children and those who accompanied them, offer remuneration to counsellors, psychologists, a financial manager, and a project coordinator, as well as pay for accounting services.

Our company has a strong focus on initiatives aimed to support children in healthcare facilities. For example, NSD’s contribution (RUB 300,000) allowed to fund the work of the “Danilovtsy” volunteer movement’s hospital teams for 6 months. During that period,

the volunteers made more than 1,000 visits to Dmitry Rogachev National Research Center of Pediatric Hematology, Oncology and Immunology, Burdenko Neurosurgery Institute, Morozov Children’s City Clinical Hospital, Russian Children’s Clinical Hospital, and Children’s Mental Hospital No. 6. As part of NSD’s collaboration with the “Strana Chudes” (Wonderland) charitable foundation in 2019, RUB 450,000 were allocated for purchasing medicines, bandages and dressings, hi-tech hearing aid and paying for children’s treatment.

In addition, NSD for the first time funded (RUB 568,698) the “Miloserdie” (Charity) charitable foundation’s mobile team that provides palliative care to children. The aid covered the wages of a neurologist, pediatrician, and social worker for 4 months.

Apart from funding medical treatment, our company seeks to invest money in the development of children deprived of parental care. NSD allocated RUB 276,000 to the Elizabeth’s children’s home to cover a six-month wage rate of a teacher of the youngest age correction group, who becomes a trusted adult for orphans and teaches them basic communication and social life skills. Moreover, to promote artistic capabilities in children of the Udelnoe center for extracurricular activities, NSD provided RUB 120,000 to purchase a multimedia studio and a Lego construction set. Children learn how to work with the multimedia studio, master the basics of animated cartoon making, video shooting and editing, and make their cartoons that are very simple so far.

ASSISTANCE TO VETERANS AND DISABLED PEOPLE

In 2019, NSD provided financial assistance to the Duet Wheelchair Athletic Dance Club for the amount of RUB 250,000. This covered travel expenses, room and board, and performance of 8 dancers and their attendants. As a result, the “Duet” team visited Minsk and participated in the Dancing and Parachuting Festival where it won 8 medals

in the wheelchair athletic dance contests (6 gold and 2 bronze medals) and 2 gold medals in parachute jumping. In addition, the Moscow team won 4 medals in the Wheelchair Athletic Dance Continental Cup (1 gold, 2 silver, and 1 bronze medals) in September 2019.

CORPORATE VOLUNTEERING

NSD’s employees who can try hand at volunteering or make a donation are engaged in charity events. Announcements of socially significant events are sent to employees in a daily morning Company Newsletter, while stories and photo reports of the charity events held are posted on the NSD portal’s Corporate Charity page. Here, NSD’s employees can also apply for participation in a charity event, make a donation, or post an announcement of an alternative charity project. In 2019, the company’s office hosted such events as Donor’s Day (89 employees donated blood) and charity fairs. The events were held with the assistance of the Blood Supply Service and the “Podari Zhizn” (Gift of Life) charitable

fund. NSD also arranged campaigns to raise funds for the medical treatment of children with cancer. As a result of all the events held, NSD’s employees donated more than RUB 37,160. The amount was handed over to those in need through the “Podari Zhizn” (Gift of Life) charity.

NSD’s employees participated in a charitable New Year’s party and purchased 80 presents for children receiving treatment in the Kirov Regional Children’s Clinical Hospital.

HUMAN CAPITAL

NSD's employees are part of the company's capital. At NSD, we pay special attention to staff development and engagement, as well as their social support.

Irina Antonova,
Head of HR

HR MANAGEMENT

In 2019, NSD's average headcount amounted to 505 employees¹. 97% of our employees have a degree from higher professional education establishments. The general turnover rate decreased as compared to the previous year and remains lower than the average figures across the financial sector, amounting to 7.7% of the average headcount.

In 2019, the number of male vs. female employees was 44% and 56%, respectively. The proportion of female executives in the total number of executives was 52%. The remuneration level at NSD depends on the job functions and position level. The pay level across similar positions for males and females is equal. Throughout 2019, the number of promotions among males and females was approximately the same (4% and 5% of the total number of employees of each gender). These figures indicate gender equality and equal career opportunities.

CORPORATE SOCIAL SUPPORT

NSD pays great attention to employee social support. In addition to voluntary medical insurance plans, overseas travel insurance, critical disease and accident insurance, as well as financial assistance due to a variety of events in an employee's life, as traditionally provided to our staff, in 2019, NSD conducted a number of activities (such as a reality game called Walking Together, topical seminars, and endocrinology screening on site), aimed to maintain and strengthen the employees' health and promote a healthy life style.

The company supports family values, inviting our employees' children to NSD's premises on the Family Day. The children enjoy diving into their parents' working environment and learning about the exciting world of finance through games, quests, and workshops.

HR BRAND PROMOTION

In 2019, NSD's user-friendly and feature-rich career website was updated and improved. It provides information that is of interest to potential employees. The website allows users to understand the company's values and priorities and make a well-informed decision when applying for a position at NSD.

The company continuously monitors and uses new communication channels when dealing with potential job applicants. The communication channels directly depend on the target audience that the company is interested in, including both experienced professionals and university and college graduates. Such approach allows us to tell them about our priorities in an open and objective manner, recruit motivated and effective employees, and be a company that is accessible and attractive to young people.

¹ Excluding part-timers and employees on a parental leave.

² Executive positions: head of a unit, head of a division, head of a department, Executive Board members.

CONTINUOUS EMPLOYEE TRAINING USING DIGITAL TECHNOLOGY

NSD strives to support a high professional level of employees and build the leadership capacity of executives. NSD offers training programs at all levels of employment in the company. These include distance learning, online training and development programs. The company uses the practice of internal cross-functional training. It ensures continuous propagation and accumulation of unique in-house knowledge. All training activities in the company are monitored and analyzed in our internal systems that collect complete HR analytics.

UPDATING APPROACHES: FEEDBACK AND DEVELOPMENT

In 2018, NSD conducted an employee engagement index survey. It showed that the NSD's employee engagement level corresponded to that of the world's most successful companies. However, the survey revealed a number of areas where our employees were somewhat unsatisfied.

In the reporting period, NSD selected internal focus groups involving about 70 employees from various business units. The key problem areas were identified within these focus groups.

Based on the results of focus group analysis, info meetings with employees were arranged and certain changes and improvements in a number of internal HR processes were introduced.

FOCUS ON TEAMWORK

Achievement of the company's strategic goals requires well-orchestrated work of all business units. Providing assistance in coordinating teamwork is one of the priorities of NSD's HR function.

In 2019, NSD conducted a number of team sessions with the key representatives of business and IT divisions. In their course, an internal agreement was reached regarding the teamwork of all members and the responsibility areas of the employees in charge of the company's internal activities were elaborated..

YOUNG GENERATION AND WORKING WITH STUDENTS

Year after year, NSD seeks to attract young specialists and ensure they grow into real professionals. Working with students is one of the major priorities in this field.

Internships and an annual conference for students is an important part of work with the young generation. In 2019, the annual NSD Progress conference was held in a new format. The most successful and motivated students of the Higher School of Economics (HSE) were invited as speakers. The company conducted internal training for speakers on the 'Presentation Skills' topic.

In 2019, the number of students invited as interns to the company was 40% higher than in 2018. This gave more young people an opportunity to gain their first work experience and NSD to recruit a larger number of trained young specialists.

INFORMATION DISCLOSURE

NSD's Information Disclosure Rules approved by the Bank of Russia (Order No. 14-6-22/9132 dated 20 September 2017) set out the procedure for information disclosure, i.e., provision of the following information to an indefinite or unlimited number of concerned parties:

- information to be disclosed by NSD in accordance with the Russian statutory requirements; and
- information disclosed by NSD on its own accord or upon request by a party concerned.

In particular, the Rules require that NSD act in accordance with the principle of transparency towards its shareholders, clients, business partners, counterparties, governmental authorities, employees, and other stakeholders. In accordance with the principle of transparency, the proper level of information disclosure is ensured by compliance with the following rules:

- Information disclosure practices must be consistent with NSD's and Moscow Exchange Group's development strategy (goals and objectives);
- Information disclosed must be accurate and accessible;
- Information must be disclosed in a timely fashion, regularly, and on a non-discriminatory basis;

- A reasonable balance must be stricken between NSD's transparency and NSD's and Moscow Exchange Group's commercial interests;
- The requirements of the Russian laws and other regulations concerning trade secrets, bank secrecy, or insider information, as well as the requirements of NSD's internal regulations applicable to dealing with confidential information must be complied with;
- Standards of professional ethics must be complied with; and
- Information distribution channels must ensure free, easy, and inexpensive access by interested parties to any information disclosed.

To ensure compliance with the Rules, the Chairman of the Executive Board approved the Procedure for Preparation, Verification and Approval of Information to Be Disclosed by NSD as the Central Securities Depository. The Procedure sets out a list of information (data, facts, documents, and other informational materials) to be disclosed by NSD and designates employees responsible for the preparation, verification, and approval of the information to be disclosed.

In addition to conventional communication channels, NSD discloses information and communicates with counterparties via popular social media: Twitter and Facebook.

AUDIT

Internal Audit Commission

The Internal Audit Commission is the controlling body responsible for internal control over NSD's financial and business activities. Members of the Internal Audit Commission are elected at annual General Meetings of Shareholders.

The members of the Internal Audit Commission are:

1. Olga Melentieva;
2. Maxim Nikonov;
3. Vladimir Sukhachev.

The proceedings of NSD's Internal Audit Commission are governed by the Regulations on the Internal Audit Commission approved by the General Meeting.

Material Aspects of Interaction with External Auditors

On 30 May 2019, NSD's annual General Meeting of Shareholders resolved to approve the appointment of Deloitte & Touche CIS as NSD's auditor to conduct audits under the Russian Accounting Standards (RAS) and the International Financial Reporting Standards (IFRS) for the period until NSD's annual General Meeting of Shareholders to take place in 2020.

9

10

11

Deloitte & Touche CIS is authorized under Russian laws to conduct independent audits of NSD's accounting system, financial statements (accounts), tax reports, financial results, and NSD's internal control system, as well as to prepare and present an auditor's report on NSD's financial statements prepared under the RAS and IFRS, and, if any material shortcomings in the accounting or internal control system are identified, issue an information letter, describing the shortcomings, to NSD's executives.

Deloitte & Touche CIS does not have any significant common interests with NSD or the Moscow Exchange Group.

Interaction with the external auditor is maintained under the Audit and Review Services Agreement. An audit is only intended to express an opinion on the validity of NSD's financial statements and on whether the accounting records are maintained by NSD in compliance with applicable Russian law. Validity means the degree of accuracy of the data contained in the financial statements and whether it enables a user of such financial statements to draw conclusions, on the basis of such data, regarding NSD's performance results, financial position, and assets, and to make informed decisions. During the audit period, the auditors also examine the tax accounting books and tax reports filed by NSD in the forms required (i.e., tax returns, tax calculations, etc.) and determine whether all tax reliefs were obtained lawfully. The purpose of a review is to express a conclusion whether, on the basis of the review, anything has come to the auditor's attention that causes the auditor to believe that NSD's interim financial statements for the first six months of the year are not prepared, in all material respects, in accordance with IAS 34 «Interim Financial Reporting».

Interaction with the auditor includes several phases:

- Phase 1: analysis of NSD's information systems;
- Phase 2: review of the company's IFRS interim financial statements for the first six months of the year;
- Phase 3: intermediate procedures: audit of the state of accounting and controls, account balances, and tax filings for the nine months of the financial year;
- Phase 4: final procedures: audit of the state of accounting and controls, account balances, RAS and IFRS financial statements and tax filings for 12 months of the financial year.

For the purposes of conducting an audit, NSD designates an employee to be in charge of liaising with NSD's business units and ensuring that the information needed for the audit is delivered in a timely fashion.

Under the Audit and Review Services Agreement, the auditor undertakes to strictly comply with the laws of the Russian Federation and other regulations, including Federal Law No. 307-FZ dated 30 December 2008 "On Audit Activities", international standards on auditing, and federal standards on auditing adopted in the Russian Federation. Furthermore, the auditor is required to:

- ensure that any documents received by the auditor in the course of an audit are kept safe and returned in due course, and that their contents or any other information are not disclosed without NSD's consent, except as provided by Russian law;
- if so requested by NSD, supply NSD with the necessary information on the requirements of the Russian laws with respect to the conduct of audits (including tax audits), and references to the regulations on which the auditor's comments and conclusions are based; and
- inspect the documents related to NSD's financial and business activities and the availability of any assets recorded in those documents.

Where the auditor discovers any breach of the tax laws or any material misstatements in NSD's financial statements or tax reports, the auditor will notify NSD's executives that they may be held liable for such breaches and that it is necessary to make amendments to the financial statements or make adjustments to the tax returns and calculations.

The auditor determines, at its own discretion, the forms and methods of the audit based on the requirements imposed by the applicable Russian laws and regulations, subject to the specific terms and conditions of the Audit and Review Services Agreement.

In the course of an audit, NSD undertakes to make the relevant arrangements and provide assistance to the auditor to ensure that the financial and tax audits are completed in a timely fashion and in full. NSD provides the auditor with all the information and documents requested and needed for the audit, provides full clarifications and confirmations as may be requested by the auditor, and requests any information necessary for the audit from third parties.

INTERNAL CONTROL

In compliance with the requirements set forth by Russian laws and Bank of Russia's regulations, NSD implements internal controls that are appropriate to the nature and scope of NSD's business (as the central securities depository and as a non-banking credit institution, professional securities market participant, clearing house, and trade repository), and to NSD's risk profile.

Internal controls are implemented to ensure that NSD pursues the following objectives:

- ensure that NSD's financial and commercial performance in the course of banking and any other operations and transactions is efficient and effective, and ensure the efficient management of assets and liabilities (including protection of assets) as well as efficient risk management;
- ensure that NSD's financial statements, accounting, statistical, and other reports (both internal and external) are accurate, complete and objective and are prepared and submitted in a timely fashion, and maintain information security (safeguard the company's interests and objectives in the information field defined as a totality of information, information infrastructure, parties involved in information collection, generation, distribution, and use, and the framework of regulation of resulting relations);
- ensure compliance with the applicable Russian laws, Bank of Russia's regulations, self-regulatory organizations' standards, and NSD's constitutional documents and internal regulations; and
- prevent NSD's or its employees' involvement in illegal activities (including money laundering and terrorist financing), and ensure that relevant information is reported to competent authorities and the Bank of Russia in a timely fashion in accordance with the Russian laws.

NSD's Supervisory Board, Executive Board, and Executive Board Chairman are actively involved in managing the internal control system. NSD has the Audit Committee, a standing advisory body of the Supervisory Board established to ensure the effectiveness of internal controls and internal audits, to assess the effectiveness of the risk management system, and to make recommendations to NSD's Supervisory Board and executive bodies to enable them to take decisions on those matters in accordance with their authority.

NSD's internal control system is based on the principle of three lines of defence, as required by the global best practices. The maturity level of the internal control system is confirmed by an independent auditor.

At NSD, there are two departments responsible for internal control on a continuous basis: the Internal Audit Department and the Internal Control Department.

The Internal Audit Department is responsible for assessing the reliability and effectiveness of internal controls, risk management, corporate governance, and business processes at NSD, provides NSD's management bodies with information upon completion of internal audits, and gives advice on matters relating to internal controls.

The Internal Control Department is responsible for ongoing control over NSD's operations, including NSD's operations as CSD, clearing house, and trade repository, as well as over the work of the AML/CFT Officer and the Insider Trading Compliance Officer.

In 2019, in the field of AML/CFT, the main focus was on automation of processes amid changing requirements of Russian laws, and on preventing questionable transactions attempted to be made using new instruments or services.

Compliance efforts were focused on ensuring compliance with increasing regulatory requirements to NSD's operations and foreign jurisdictions' requirements concerning tax risks (FATCA, The Common Reporting Standard), as well as on managing geopolitical risks.

- The Internal Control Department improves its control and monitoring tools on a continuous basis, including:
- monitoring of whether regulatory reports are submitted to the Bank of Russia in a timely fashion;
- access to insider information;
- quality of handling client enquiries that could be classified as complaints; and
- compliance with the AML/CFT requirements of the laws and Bank of Russia's regulations.

In 2019, NSD's key areas of business were audited by the Bank of Russia, without any material findings on non-compliance.

The multi-level internal control system enables NSD to effectively identify and manage risks in all areas of its business.

INFORMATION SECURITY

To deliver on its strategic objectives, it is crucial for NSD to implement information management and protection practices, as information protection is the overarching factor of effective and sustainable performance.

NSD has the status of central securities depository, its Payment System is nationally important, and NSD also provides banking, trade repository, clearing, and other services in the financial market. All these factors make information and cyber security one of NSD's priorities.

The work to ensure information security (IS) at NSD is organized in accordance with the Russian laws, Bank of Russia's requirements and recommendations, the package of standardization documents issued by the Bank of Russia (entitled "Ensuring Information Security at Organizations of the Banking Industry of the Russian Federation") (the "BR ISBS Package"), NSD's Information Security Policy, and the best practices and international standards.

The focus of IS activities is to ensure the security of clients' assets, as well as the security of the company's banking, depository, settlement and information systems, to ensure NSD's sustainable and effective performance, and to safeguard interests of NSD and its shareholders, investors, and clients against information security threats. The Information Security Division is responsible for putting in place an effective system to manage IS risks and conducting works designed to identify and counter any possible threats.

In accordance with the requirements of the Russian laws and the requirements set out in the BR ISBS Package, the Information Security Division is actively involved in analyzing business processes, drafting terms of reference, rolling out hardware and software, and performing an expert review of contracts and agreements. In addition, the Information Security Division regulates processes designed to separate users' access, sets up and maintains information protection tools, allocates access rights, and maintains key information.

Thanks to regular IS audits, NSD can objectively assess the current level of information security. On a quarterly basis, the Information Security Division issues a cyber security report describing the current security status of IT systems; reports are provided to the Executive Board, Executive Board Chairman, Risk Management Department, and Audit Committee of the Supervisory Board.

An independent audit of NSD for compliance with the requirements set out in Bank of Russia's Regulations No. 382-P dated 9 June 2012 "On the Requirements to Information Security in the Course of Money Transfers and the Procedure for Monitoring by the Bank of Russia of Compliance with Such Requirements", which was conducted in 2019, confirmed that NSD complies with the Bank of Russia's requirements and observes the international Principles for Financial Market Infrastructures, and showed an improvement in the IS level.

To maintain and raise its IS level, NSD took steps to improve its information protection tools and IS-related internal regulations and to enhance security of source codes of business IT systems under development.

In 2019, NSD's Information Security Division paid specific attention to:

- ensure security of the company's internal systems, focusing on those accessible online, by addressing vulnerabilities identified by penetration and other tests;
- update IS-related internal regulations;
- address vulnerabilities identified in NSD's information infrastructure; and
- automate IS processes and procedures.

NSD took steps to improve the process of vulnerability management, which allowed the company to identify and address vulnerabilities in NSD's information infrastructure before they have caused negative effects as a result of such vulnerabilities being exploited by intruders.

In the reporting year, the following measures were implemented:

- A list of IT systems covered by static code analysis to identify potential vulnerabilities was expanded; the process of mandatory audit of all IT systems to be deployed to the production environment was automated; and tools designed for security screening of third-party libraries and IT systems being tested were implemented. These steps will improve effectiveness and help further decrease the number of vulnerabilities against previous periods, which may be identified by subsequent penetration tests.

1

2

3

4

5

6

7

8

9

10

11

- IS-related internal regulations were updated as part of the personal data protection efforts.
- Thanks to the implementation of additional information protection tools, improvements were made to the access management and user account management processes.
- The account lifecycle management process was automated.

The Information Security Division continuously improves the methodological and technological support of its activities. In particular, the Information Security Division analyzes, on a regular basis, legislative and regulatory changes, including changes in Government Standard GOST 57580.1-2017 «Security of Financial (Banking) Operations. Information Protection at Financial Institutions. Basic Organizational and Technical Measures», providing the basis on which NSD can make necessary amendments to its internal regulations in a timely fashion, and implements and modernizes security and protection solutions.

CORONAVIRUS AND FINANCIAL MARKET VOLATILITY IN 2020

In early 2020, the new coronavirus (COVID-19) began to spread around the world. It is likely to substantially affect many businesses across different sectors. In March, the global oil prices plummeted more than 40%, immediately resulting in the Russian ruble's depreciation against major foreign currencies.

At the time of publication of this Annual Report, amidst increased uncertainties across the global markets caused by the coronavirus epidemic, NSD is analyzing different development scenarios.

Coronavirus consequences and RUB exchange rate volatility might have impact on NSD's performance in 2020.

Significance of COVID-19's impact on NSD will largely depend on how long and how deep the virus affects both the global and Russia's economy.

REPORT ON COMPLIANCE WITH NSD'S CORPORATE GOVERNANCE PRINCIPLES

№	Principle	Compliance
1	Ensuring governance of National Settlement Depository («NSD» or the «Company»), which meets the Company's strategic objectives, is consistent with the Company's corporate values and the scope of its business, and meets the needs and interests of its clients	<p>While NSD is a non-public company, NSD seeks to apply the best standards and practices in corporate governance. Application of the best standards and practices in corporate governance, as well as of the NSD's and Moscow Exchange Group's development strategy, is crucial to NSD's growth. The key objective of NSD's corporate governance is to build efficient decision-making mechanisms designed to manage strategic risks and to address growth challenges.</p> <p>NSD's corporate governance system comprises NSD's management, controlling, and other bodies.</p> <p>Interaction between NSD's shareholders is based on the Shareholders Agreement and aimed at maintaining the balance of interests of all NSD's shareholders.</p> <p>The Company cooperates with its clients effectively and seeks to act in their best interests. NSD's Customer Committees are the key tool of such cooperation. NSD has 8 Customer Committees members of which are representatives of NSD's clients. The Customer Committees are NSD's advisory bodies that discuss and formulate proposals for arrangement and improvement of client services, improvement of settlement technologies, and expansion of the range of products and services. They also discuss initiatives of making amendments to laws and regulations. The detailed information on NSD's Customer Committees and their activities is available on NSD's web site at www.nsd.ru.</p>
2	Ensuring that Supervisory Board's activities are based on: <ul style="list-style-type: none"> • strategic governance of the Company; 	<p>NSD's strategic objectives are defined as part of the NSD's and Moscow Exchange Group's Development Strategy. The Company's strategic objectives are subject to continuous monitoring by the Executive Board, Strategy Committee, and Supervisory Board.</p> <p>In accordance with NSD's Articles of Association, the Supervisory Board is responsible for strategic governance of the Company by:</p> <ul style="list-style-type: none"> • approval of the Company's business priorities; and • approval of NSD's development strategy and monitoring of compliance with it.

№	Principle	Compliance	
	<ul style="list-style-type: none"> performance by the Supervisory Board of control functions over activities of NSD's executive bodies, as well as over the decision-making process aimed at addressing any shortcomings identified by such controls in activities of NSD's executive bodies; performance assessment of the Supervisory Board and Supervisory Board Committees and disclosure of results of such assessments; and segregation between control functions and management duties, and determination of individual and collective responsibility of Supervisory Board members. 	<p>On 23 April 2019, the Supervisory Board approved the NSD Development Strategy 2019–2024 (pre-approved by the Strategy Committee of NSD's Supervisory Board), which sets out NSD's strategic objectives until 2024.</p> <p>NSD's Supervisory Board exercises control over the performance of executive bodies by:</p> <ul style="list-style-type: none"> appointment and removal of the Company's chief executive officer (Chairperson of the Executive Board) and members of the collegial executive body (Executive Board), and approval of their remuneration and benefits; granting permission to members of the Company's executive bodies to hold positions in management bodies of other organizations; preliminary approval of annual reports and submission thereof to the General Meeting of Shareholders; review of Company's performance reports prepared by the Executive Board; assessment of the performance of Company's executive bodies' members against the corporate and individual Key Performance Indicators and taking decisions upon such assessment, including decisions to pay bonuses. <p>In 2019, NSD's Supervisory Board reviewed and took note of the following reports:</p> <ul style="list-style-type: none"> report on the implementation of NSD's 2018 budget (resolution dated 12 March 2019); NSD's performance report for Q1 2019 (resolution dated 23 April 2019); report on the implementation of NSD's 2019 budget for 5M 2019 (resolution dated 2 July 2019); NSD's performance report for 8M 2019 (resolution dated 1 October 2019); report on the implementation of NSD's 2019 budget for 8M 2019 (resolution dated 1 October 2019); and NSD's preliminary performance report for 2019 (resolution dated 18 December 2019). <p>On 12 March 2019, NSD's Supervisory Board reviewed the performance of executive bodies' members against their Key Performance Indicators and resolved to pay performance bonuses to them for 2018.</p> <p>No shortcomings were identified in the performance of NSD's executive bodies.</p> <p>An assessment of the state of corporate governance at NSD in accordance with the Bank of Russia's guidelines (an «Assessment») is an important tool designed to monitor the quality of corporate governance, including the effectiveness of Supervisory Board's work. An assessment is conducted at least on annual basis under the leadership of the Supervisory Board, and for this purpose officers are designated to collect and summarize information and to issue a report on the state of corporate governance to the Supervisory Board.</p>	<p>•</p> <p>•</p> <p>•</p> <p>•</p> <p>1</p> <p>2</p> <p>3</p> <p>4</p> <p>5</p> <p>6</p> <p>7</p> <p>8</p> <p>9</p> <p>10</p> <p>11</p>

№	Principle	Compliance
		<p>In 2019, NSD's Supervisory Board conducted a scheduled Assessment in accordance with the methodology recommended by the Bank of Russia, with a focus, in particular, on the following areas of Supervisory Board's work:</p> <ul style="list-style-type: none"> • overall management of NSD's operations and the establishment of business priorities; • organizing the Supervisory Board's activities, including its interaction with NSD's executive bodies; • compliance with the corporate governance principles; • availability of efficient risk management at NSD; and • availability and quality of necessary internal regulations, the approval of which is a matter reserved for the Supervisory Board. <p>The assessment involved completing a questionnaire by the Supervisory Board members. The final assessment report was presented and approved at the meeting of the Supervisory Board on 5 March 2019.</p> <p>In accordance with NSD's Articles of Association, Supervisory Board's management duties and control functions are segregated.</p> <p>In terms of its control functions, the Supervisory Board controls:</p> <ul style="list-style-type: none"> • implementation of the Company's development strategy; • performance of executive bodies; • NSD's financial and business operations; and • NSD's risk management activities. <p>In terms of its management duties, the Supervisory Board is responsible for the overall management of the Company. In particular, the Supervisory Board approves key guiding principles of Company's operations, its strategy and business priorities, annual budgets, and risk management and internal control principles and approaches.</p> <p>In its work, the Supervisory Board follows the principle of accountability. Supervisory Board members act in the best interests of NSD, in good faith and reasonably, and may be held liable for their fraudulent or unreasonable practices, including where their actions or omissions were contrary to customary business practices or customary business risk. If their actions or omissions have caused damages to NSD or its shareholders, Supervisory Board members are liable to pay such damages.</p>

№	Principle	Compliance
3	Ensuring the functioning of NSD's internal control, internal audit, and risk management systems	<p data-bbox="761 323 1845 368">At NSD, internal controls, internal audit, and risk management meet the Russian statutory requirements to NSD and the international guidelines for internal control, internal audit, and risk management systems.</p> <p data-bbox="761 403 1957 639">The Internal Control Department (ICD) is responsible for ongoing control over NSD's regulatory risk management practices as CSD, professional securities market participant, credit institution, clearing house, and trade repository; in particular, the ICD performs the internal control functions for the purposes of anti-money laundering, combating the financing of terrorism and the financing of proliferation of weapons of mass destruction, and combating insider trading and market manipulation. The ICD keep records of regulatory risk events, analyzes them, and assesses their probability and potential impact. The head of ICD reports potential and/or actual regulatory risk events that have resulted (or are capable to result) in significant consequences to the Chairperson of Executive Board. At least on an annual basis, the head of ICD submits an ICD performance report to the Supervisory Board. NSD ensures that the ICD performs its functions without any interference from NSD's business units or employees.</p> <p data-bbox="761 671 1939 850">The Internal Audit Department (IAD) is responsible for internal audits, including ongoing independent assessment of reliability, efficiency and effectiveness of internal controls, corporate governance, and business processes at NSD, as well as of the risk management system, and efficiency of the methods applied by NSD to ensure security of its assets. The IAD audits all areas of NSD's business, and any business unit or employee can be audited. The Company ensures the operational continuity, independence and impartiality of the IAD, as well as professional competence of its head and staff. NSD also ensures that the IAD smoothly and effectively exercises its functions. The IAD and the head of IAD report to, and are directly controlled by, NSD's Supervisory Board.</p> <p data-bbox="761 882 1951 1066">The Company has in place a risk management system that is adequate to the nature and scope of its operations and encompasses risk reduction and mitigation measures; a risk monitoring system that ensures reporting necessary information to NSD's management bodies; and a process designed to manage key risks that can potentially have negative impact on NSD's operations. Risk management duties are allocated between the Supervisory Board, executive bodies, heads of NSD's key business units, the Risk Management Department, and the Internal Control Department (the latter is responsible for regulatory risk management). Information regarding the risk management system in place at NSD is communicated to shareholders, the Bank of Russia, and other stakeholders on a regular basis, by way of reporting or on the Company's web site.</p>

№	Principle	Compliance
4	Ensuring prevention, identification, and management of conflicts of interest arising in NSD's operations, and corruption control	<p>The measures taken by the Company to prevent conflicts of interest are set out in NSD's internal regulations, including in the Conflict of Interest Prevention Policy and the Code of Professional Ethics. The purpose of such measures is to prevent a situation in which employees' personal interests may hinder or prevent them from performing their duties in good faith and efficiently.</p> <p>In managing corruption risk, NSD acts in accordance with the key principles set out in NSD's Anti-Bribery and Corruption Policy: prevention of any corrupt practices; investigation of any situations that show signs, or give reason to suggest existence, of corruption risk; analysis of risks in business relations with counterparties; and employee awareness-raising and training. The key measures taken to control corruption risk are:</p> <ul style="list-style-type: none"> • prohibition of giving/receiving anything of value (including gifts) with the intention to get assistance in solving any issue; • establishment of a body responsible for monitoring tender processes for the purpose of taking a decision on whether or not to enter into a contract; • incorporation of anti-corruption clauses into contracts; • performance of counterparty due diligence; and • providing employees with a possibility to report corruption risks (including anonymously).
5	Ensuring the equitable and fair treatment of all shareholders exercising their right to participate in Company's management, and striking a balance between the rights and interests of NSD's clients and those of its counterparties or other stakeholders	<p>NSD ensures equitable and fair treatment of all shareholders exercising their right to participate in Company's management. Each shareholder may participate in a physical (in-person) General Meeting of Shareholders and cast a vote by any of the following methods: by mailing the voting ballot, or by attending the meeting personally, or by e-voting. Shareholders can use the e-voting option by completing an e-voting ballot on the dedicated web site. To ensure equitable treatment of all shareholders, NSD provides information regarding the convocation of a meeting and meeting materials both in Russian and in English, and also translates voting ballots into English to remove voting barriers for non-Russian shareholders in accordance with the OECD guidelines.</p> <p>Moreover, NSD seeks to establish long-term, stable, and mutually beneficial relations with its counterparties. NSD chooses its counterparties through a tender process that makes the contracting process transparent and allows the Company to choose best counterparties.</p>

№	Principle	Compliance
6	Ensuring the transparency of NSD's operations and efficient communications between NSD and its shareholders and other stakeholders	<p data-bbox="759 323 1872 368">Ensuring the transparency of NSD's operations and efficient communications between NSD and its shareholders and other stakeholders is one of the key corporate governance principles followed by NSD.</p> <p data-bbox="759 403 1906 477">To enable its shareholders to make reasonable and informed decisions and to ensure the transparency of its operations, NSD discloses, in a timely fashion, full and accurate information on its activities, as required by Russian law and NSD's internal regulations.</p> <p data-bbox="759 512 1498 531">NSD's shareholders enjoy equal rights to gain access to all corporate information.</p> <p data-bbox="759 566 1912 611">NSD's shareholders and other stakeholders may receive full and accurate information, including information on NSD's financial standing, performance, governance, shareholders, and any material facts that affect NSD's financial and business activities.</p> <p data-bbox="759 646 1944 719">Information is disclosed in accordance with NSD's Information Disclosure Rules (the «Rules») approved by the Supervisory Board. The Rules set out the procedure for information disclosure, i.e., the procedure for ensuring that information on NSD is accessible by any interested party in the manner that enables such party to find and receive necessary information, including:</p> <ul data-bbox="759 754 1659 828" style="list-style-type: none"> • information to be disclosed by NSD in accordance with the Russian statutory requirements; and • information disclosed by NSD on its own accord or upon request by a party concerned. <p data-bbox="759 863 1906 908">The principal channel used by NSD for information disclosure is NSD's web site at www.nsd.ru that is used to post information sufficient to understand any material aspects of the Company's business.</p> <p data-bbox="759 943 1928 1016">Non-Russian shareholders and clients have access to the English-language version of NSD's web site, including Company's news, constitutional documents, key financials and operational performance figures, information on corporate governance, and contact details.</p>
